SHED MASTER®
GDO-8

An opener with versatility, no matter what the environment.

Automatic Technology's Shed Master® opener is the ideal solution for exposed areas, such as perimeter doors and open carports. With a tough, IP24 rated weather resistant housing and a slim fit design, the Shed Master® is suitable for even the tightest of spaces.

Just because it's rugged doesn't mean this roller door opener isn't fit for all circumstances. Standard features include Intelligent Safety Systems, Door Profiling and TrioCode™128 transmitter system ensuring optimum safety and security. The Shed Master® comes with a keyed lockout feature which prevents unauthorised manual operation of the door. If you need a solution to last in all weather conditions, look no further than Shed Master®.

WHAT'S INCLUDED:

Weather Resistant Opener

2x TrioCode™128 transmitters

Keyed Lockout

AT A GLANCE:

SECURE & RELIABLE TRANSMITTERS

The TrioCode™128 remote control ensures secure and reliable home access. It transmits on three frequencies to defeat radio interference, and uses a 128-bit encryption protocol for the ultimate in security.

WEATHER-RESISTANT HOUSING

Designed for installation on uncovered or exposed doors, this opener has a weather resistant rating of IP24.

KEYED & ELECTRONIC LOCKOUT

As the Shed Master® can be installed in exposed locations, a keyed lockout is included to stop unwanted persons reaching over the fence and disengaging the door to manual mode. Also, the control panel can be similarly locked out to prevent unauthorised usage.

INTELLIGENCE

This opener is top of its range with built-in intelligent features such as Intelligent Safety System and Door Profiling – meaning the door adjusts itself when opening and closing or if blocked.
