

DOMINATOR™ HIRO

HIGH ROLLING SHEET DOORS

Powerhouse performance for demanding applications

Slim but powerful to suit demanding business and commercial applications. Despite being one of the most powerful openers in our range, the Hiro is also suitable for low side room installation, making it an excellent option for tight spaces with as little as 1.57 inches.

The Hiro opener delivers both control and connectivity via an in-built smartphone control system. Whether you have a very large roller door, a wind-locked door or require low side room compatibility, the Hiro opener is the perfect choice for commercial and industrial needs.

WHAT'S INCLUDED:

Opener with LED Courtesy Light

Wireless wall button + 2x TrioCode™ 128 Remote Controls

Wired Safety Beams

AT A GLANCE:

SECURE & RELIABLE TRANSMITTERS

The TrioCode™128 transmitter system ensures secure and reliable home access. It transmits on three frequencies to defeat radio interference, and uses a 128-bit encryption protocol for the ultimate in security.

KEY FEATURES

- 1400N Short-term peak force
- Soft Start / Soft Close
- Slim fit design
- LED Courtesy Light
- Intelligent Safety System
- Smart phone compatible

INTELLIGENT SAFETY SYSTEM (ISS)

If contact is made with an obstruction while moving, the opener either stops or reverses the door to reduce the risk of injury or property damage.

SOFT START / SOFT CLOSE

The Soft Start / Soft Close feature ramps speed up and down at the start and end of each cycle, therefore reducing stress on the door and opener.
