6. STATUTORY GUARANTEES OR WARRANTIES IN AUSTRALIA

If you are a consumer under the Australian Consumer Law, our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

This warranty and other statements contained in ATA documentation about these products do not exclude, restrict or modify the application of all or any of the provisions of the Australian Consumer Law. This warranty is in addition to your other rights and remedies under the Australian Consumer Law.

Subject to your non-excludable rights under the Australian Consumer Law, ATA expressly excludes any liability for consequential loss, incidental or indirect damages (including but not limited to damages for loss of business profits, business interruption and loss of business information) due to a defective product. In particular, any loss or damage caused to other equipment or accessories used with the product or any loss resulting from a delay in replacement is excluded to the extent permitted by law.

ATA SERVICE BOOK

Preventative servicing of your door and opener, is just as important as servicing your car. Much like the engine of your car, your door is made up of numerous moving parts designed to lift and lower your door safely and efficiently.

Ongoing preventative servicing ensures that your door continues to function within factory specifications, greatly reduces the risk of failure and repair bills down the track and ensures you maintain your Warranty.

TECHNICIAN CHECKLIST

1. Lubrication of the critical moving parts.
2. Tightening of door mounting points along with door bolts, screws, cables and connectors.
3. Adjustment of spring tension to limit 'spring fatigue'.
4. Adjustment of opener travel limits and force margin to ensure the door opens and closes to specification.
5. Assessment and adjustment of safety components and accessories including safety beams (if installed).
6. Assessment of the door alignment and the diagnosis of irregular operation remedies.
7. Record Cycle count at each service to establish next date of service (as per table)
