NOTICE TO SHAREHOLDERS
(the “Notice”)

14 April 2025

Dear Shareholder,

We are writing to inform you of certain changes we are making to the Company and the Funds, which are summarised below.

The changes described in this Notice are not expected to have a material impact on investors or on the risk profile, investment strategy, or portfolio construction of the Funds and unless otherwise stated, will be effective on or around 14 May 2025 (the “Effective Date”).

Please see “Options Available to You” below for further information on how to respond to this Notice.

1. Introduction of a minimum commitment in sustainable investments

From the Effective Date, the Funds currently promoting environmental and / or social characteristics pursuant to article 8 of the Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector (respectively, the “Funds” and the “SFDR”) listed in the table below will adopt a new commitment to also invest a minimum percentage of its net asset value in sustainable investments.

Fund	Minimum commitment of net asset value in sustainable investments
Pan European Property Equities Fund	10%
Pan European Smaller Companies Fund	10%
Global Property Equities Fund	10%
Asia-Pacific Property Income Fund	10%
Global High Yield Bond Fund	5%
Euro Corporate Bond Fund	20%
Euro High Yield Bond Fund	10%
Strategic Bond Fund	10%

Why have we decided to include the commitment?

Janus Henderson Investors Europe S.A., as the management company to the Company (the “Management Company”), continuously monitors and performs assessments of the Company’s sub-funds to ensure they continue to meet client expectations and needs. Feedback from clients suggests there is demand for the Funds to commit a minimum level of exposure to sustainable investments. In

response to this demand, the Management Company, on the recommendation of the Investment Manager, has decided to introduce a minimum commitment in sustainable investments for the Funds.

What do we mean by sustainable investments?

The Investment Manager will use its sustainable investment methodology to determine which investments may be considered sustainable investments.

With respect to the Pan European Property Equities Fund, Pan European Smaller Companies Fund, Global Property Equities Fund, and Asia-Pacific Property Income Fund, the Investment Manager uses a pass/fail test meaning that each sustainable investment must meet all three of the requirements below:

1. based on revenue mapping to UN Sustainable Development Goals or having a carbon emissions target approved by the Science Based Targets initiative (SBTi), it contributes to an environmental or social objective;
2. it does not cause significant harm to any environmental or social sustainable investment objective; and
3. it follows good governance practices.

With respect to the Global High Yield Bond Fund, Euro Corporate Bond Fund, Euro High Yield Bond Fund, and Strategic Bond Fund, the Investment Manager uses a pass/fail test meaning that each sustainable investment must meet all three of the requirements below:

1. based on revenue mapping to UN Sustainable Development Goals or having a carbon emissions target approved by the Science Based Targets initiative (SBTi), it contributes to an environmental or social objective or in the case of Green, Social and Sustainability Bonds 100% of the proceeds must be exclusively and formally applied for the financing or refinancing of projects with social and/or environmental benefits;
2. it does not cause significant harm to any environmental or social sustainable investment objective; and
3. it follows good governance practices.

A summary of the amendments added to the Fund disclosures is included at **Appendix A**.

2. Clarification to the investment strategy of the Strategic Bond Fund

From 17 April 2025, the investment strategy of the Strategic Bond Fund will be updated to clarify that at times in the market cycle, the Fund will be expected to have higher interest rate sensitivity. This means that during such times, the Fund may result in significant underperformance or outperformance caused by changes in interest rate.

This is not a change to the existing investment strategy of the Fund. The new language is being added to describe the Fund's existing investment strategy in a more comprehensive manner.

Existing investment strategy	New investment strategy
The Investment Manager follows a flexible strategy that seeks to deliver total returns (capital appreciation and income) from investments across the entire spectrum of fixed income assets. Using careful macroeconomic research and credit analysis, the portfolio managers actively vary the allocation to different types of bonds to suit the prevailing economic environment.	<p>The Investment Manager follows a flexible strategy to construct a diverse portfolio of investments from across the spectrum of fixed income assets. 	which may result in significant underperformance or outperformance, particularly when government bond yields move more quickly or to a greater extent than anticipated. The Investment Manager adopts this approach as it is believed this can be beneficial for long-term performance.
