Middle East

Egis Appoints George Voutsinas as Regional Director for Aviation in the Middle East

As aviation takes center stage in the Middle East's transformation journey, with national visions prioritizing sustainable growth, technological innovation, and global connectivity, Egis is strengthening its leadership to support this momentum. The Group is pleased to announce the appointment of George Voutsinas as Regional Director for Aviation in the Middle East.

With more than 23 years of international experience in aviation project management, George brings a unique perspective shaped by his work as a consultant, contractor, and designer across Europe, the UK, and the Middle East. He has successfully led major airport expansion projects, where he navigated complex stakeholder environments and fostered collaboration among diverse teams. His approach centers on team building, transparent communication, and long-term client relationships, pillars that have consistently enabled the delivery of mega projects to the highest standards.

George is also a strong advocate for innovation and sustainability in aviation. He has championed the integration of digital twins, 4D BIM, real-time data analytics, and sustainable retrofit solutions, ensuring that airports are not only delivered but also future-proofed against evolving industry demands. His experience aligns closely with the region's strategic ambitions, particularly Saudi Arabia's Vision 2030 and the UAE's 2031 vision, where Egis is actively contributing to the transformation of the nations' aviation sector.

George Voutsinas, Regional Director for Aviation of Egis in the Middle East, said: "Throughout my 23 years in aviation project management, I have learned that the foundation of successful projects lies in building trust, fostering collaboration, and adapting to cultural contexts. By combining technical excellence with innovation and sustainable practices, we can deliver aviation projects that meet today's needs while preparing for tomorrow's opportunities. I am honoured to take on this role and look forward to working with our teams and clients to shape the future of aviation in the Middle East"

This appointment underlines Egis' commitment to delivering world-class, sustainable, and innovative aviation infrastructure that supports economic diversification, enhances global connectivity, and meets the ambitions of the region.

About Egis

IMAGINE. CREATE. ACHIEVE.
a sustainable future

Egis is an international player active in architecture, consulting, construction engineering and mobility services. We create and operate intelligent infrastructures and buildings that respond to the climate emergency and contribute to more balanced, sustainable and resilient territorial development. Operating in 100 countries, Egis puts the expertise of its 22,000 employees at the service of its clients and develops cutting-edge innovations accessible to all projects. Through its wide range of activities, Egis is a key player in the collective organisation of society and the living environment of citizens all over the world.

With 3,700 employees across 8 countries in the Middle East, Egis has delivered over 800 complex development projects, stimulating economic growth and enhancing quality of life. Ranked among the top five firms in the Middle East by Engineering News Record (ENR), Egis is committed to sustainable development. The Group's operations in the Middle East are built on strategic acquisitions and a deep understanding of local market conditions. Egis' long history of providing comprehensive engineering, consulting, and project management services makes it a trusted partner for regional governments, investors, and developers.
