London

10N announced as Egis Group's architecture collective at the 19th Biennale Architettura 2025, 19th International Architecture Exhibition

We are excited to announce the branding of Architecture within Egis Group, a leading global architectural, consulting, construction engineering, operations and mobility services firm, further strengthening Egis' global leadership in architecture and sustainable urban design.

The 10N (ten N) collective was introduced by Laurent Germain, Egis Group's CEO during a speech on May 8th at the opening of the British Pavilion exhibition at the Venice Architecture Biennale and will roll out across 2025.

Headquartered in London but truly global with 1500 creative talents, 20 studios across 5 continents, 10N is a unique collective of urbanism, architecture and related design experts. The collective capitalises on the strong, existing brand equity of the member practices; WW+P, SvN, 10 Design, Fenwick Iribarren Architects, U+A and Omrania, together leading sustainable citymaking with a unified approach to redefining solutions for the built environment. Each studio of 10N has achieved recognition for high profile and award-winning projects, from urban policy, transport and mixed use, to commercial, hospitality, stadia and housing.

Laurent Germain, CEO of Egis comments, "This strategic initiative marks a significant milestone in the company's continuing focus on architecture and urbanism. As global cities face the complexities of climate adaptation, increasing urban density and infrastructure resilience, Egis, through 10N, is uniquely positioned to provide innovative, holistic solutions that shape the cities of tomorrow."

Colin Hutchison, CEO of 10N explains further: "Coming together under a single, cohesive brand, we are forming a unique supergroup of complementary practices, known worldwide for their specific sector expertise and geographical outreach. This is a compelling proposition to bring to market, drawing on the success of the member companies and driving future cross-collaboration. The collective gains added strength by leveraging the full breadth of Egis' multidisciplinary expertise to fully address the challenges of urbanisation and climate urgency."

Central to our purpose is our commitment to environmental and social responsibility; philosophically, operationally and financially.

Egis is a donor to the 19th International Architecture Exhibition of La Biennale di Venezia.

About Egis

IMAGINE. CREATE. ACHIEVE.
a sustainable future

Egis is a leading global architectural, consulting, construction engineering, operations and mobility services firm. We create and operate intelligent infrastructure and buildings that both respond to the climate emergency and contribute to balanced, sustainable and resilient development.

Our 20,500 employees operate across over 100 countries, deploying their expertise to develop and deliver cutting-edge innovations and solutions for clients. Through the wide range of our activities, we are central to the collective organisation of society and the living environment of citizens all over the world.
