Jordan

Egis Chosen as Project Management Company for King Hussein Cancer Centre (KHCC) Construction in Aqaba, Jordan

Aqaba, Jordan - Egis, a leading engineering and operations company, has been selected as the Project Management Company for the construction of King Hussein Cancer Centre (KHCC) in Aqaba, Jordan. This project will bring advanced oncology and cancer patient care to the Southern Governorates of Jordan, eliminating the need for travel to Amman for cancer treatment. The KHCC in Aqaba is also expected to boost medical tourism in the city.

In addition to representing KHCC, Egis will oversee crucial aspects of the project, including but not limited to managing the construction and supervision contracts, establishing effective communication channels between all parties, monitoring construction progress, ensuring staff competency, overseeing document control, ensuring timely project execution, and monitoring claims and variation orders, if any.

The project, a medical clinic building located on a 12,000m² plot will be a five-floor building consisting of a basement, ground floor and three upper floors with a total area of 6,670m² and an additional building extension of 300m². The facility is designed to meet green building standards set by the United States Green Building Council (USGBC) and aims to achieve LEED Silver certification. The foundation stone was laid by His Majesty King Abdullah II of Jordan on March 2nd, 2023.

"We are honored to be appointed as the Project Management Company for the construction of the King Hussein Cancer Centre in Aqaba. This project represents a significant milestone in improving access to quality cancer care in the Southern Governorates of Jordan. We are committed to delivering this project with utmost dedication and professionalism, and we look forward to making a positive impact on the lives of patients in Jordan," said Alaa AbuSiam, the CEO of Egis in the Middle East & South Asia.

This appointment builds upon Egis' track record of success in Jordan, where they have been operating for close to 8 years. Their extensive portfolio includes notable projects such as the Ayla Resort in Aqaba, Al Ahliyyah School, Housing Bank for Trade and Finance, and the Arab Mining Company Industrial Development Institute, among others. Egis continues to strengthen its presence across all sectors within the country.

About the Egis group

IMAGINE. CREATE. ACHIEVE.
a sustainable future

Egis is an international player active in the consulting, construction engineering and mobility service sectors. We create and operate intelligent infrastructure and buildings capable of responding to the climate emergency and helping to achieve more balanced, sustainable and resilient territorial development. With operations in 120 countries, Egis places the expertise of its 16,000 employees at the disposal of its clients and develops cutting-edge innovation accessible to all projects. Through its wide-ranging fields of activity, Egis is a central player in the collective organisation of society and the living environment of citizens all over the world.

Egis currently operates in 11 countries across the Middle East completing over 700 projects in 15 countries in the region and recruiting over 2,600 employees. Egis is a major player in infrastructure engineering, consultancy, project management and operations in the Middle East and has contributed to some of the region's biggest airport, rail, water, urban mobility and urban development schemes. Egis partners with governments, cities, industrial bodies, communities and private businesses to support this dynamic region's accelerated development and growth with an ambition to encourage and practice sustainable development truly supporting the needs of the communities.
