# Egis to provide Project Management Consultancy Services for The New Kuwait Airways Tower

**Kuwait City, Kuwait** – Egis, the renowned engineering and operations consultancy, has been selected to provide Project Management Consultancy (PMC) services for the execution of the new Kuwait Airways Tower project in Qibla, Kuwait. Kuwait Airways Company (KAC) aims to construct a state-of-the-art, LEED certified, multi-purpose tower that adheres to the latest technical and professional standards, optimizing functionality and sustainability.

Egis will work closely with KAC alongside the entire project lifecycle, providing comprehensive project management services from pre-design to testing, commissioning, and handover. Leveraging BIM- based technology, and aiming for LEED certification, Egis will oversee pre-construction and construction phases, feasibility studies, site analysis, market research, project concept and program, project scheduling, cost and time management, LEED consulting, design coordination, value engineering, quality control, risk planning and more to ensure a successful delivery of this iconic tower.

"The Kuwait Airways Tower project represents an important milestone for Kuwait Airways Company. We are delighted to partner with Egis as our Project Management Consultant for this endeavour," said His Excellency Captain Ali AL Dokhan Chairman of Kuwait Airways Company. "Their expertise and proven track record in managing complex projects align perfectly with our vision of creating a state-of-the art tower that showcases sustainability and exemplifies the highest standards of design and functionality. Together with Egis, we are confident in delivering an iconic landmark that will elevate Kuwait's profile in the global business landscape."

The project encompasses an area of 1,416m<sup>3</sup> and will feature a multi-story tower spanning 20 to 30 floors, a two-level basement for parking, a podium serving as a multi-purpose hall with a commercial complex on the ground floor and two mezzanine levels, along with additional upper floors. Furthermore, the project scope includes landscaping, external civil works, surface parking spaces, hospitality offerings, and other components based on the feasibility study, ensuring optimal utilization of the available area and services on and around the site.

"We are honored to have been chosen as the Project Management Consultant for the esteemed Kuwait Airways Tower project. This opportunity reinforces Egis' position as a trusted and influential leader in the field of engineering. We are excited about establishing a strong and enduring partnership with our esteemed client, collaborating closely to leverage our expertise and ensure the flawless execution of this iconic tower," said Egis in Kuwait's Managing Director, Khaled Elmir.

Egis has established itself in Kuwait through active engagement in numerous prestigious projects that align with the country's vision. Notable examples include The Scientific Center, the National Bank of Kuwait HQ, Al Ghouse Road, the Boubyan Bank HQ, and PMC For Al Multaa City, The central Bank of Kuwait and among many others.

## About the Egis group

---

**IMAGINE. CREATE. ACHIEVE.**  
*a sustainable future*

Egis is an international player active in the consulting, construction engineering and mobility service sectors. Egis design and operate intelligent infrastructure and buildings capable of responding to the climate emergency and helping to achieve more balanced, sustainable and resilient territorial development. With operations in 120 countries, Egis places the expertise of its 18,000 employees at the disposal of its clients and develops cutting-edge innovation accessible to all projects. Improving people's quality of life and supporting communities in their social and economic development, whilst drastically reducing carbon emissions and achieving vital 2050 net zero targets, that's our purpose.

Egis currently operates in 11 countries across the Middle East completing over 500 projects in 15 countries in the region and recruiting over 2,600 employees. Egis is a major player in infrastructure engineering, consultancy, project management and operations in the Middle East and has contributed to some of the region's biggest airport, rail, water, urban mobility and urban development schemes. Egis partners with governments, cities, industrial bodies, communities and private businesses to support this dynamic region's accelerated development and growth with an ambition to encourage and practice sustainable development truly supporting the needs of the communities.
