Egis increases ranking on the Top100 Projects Report

In recognition of their growing involvement in the largest infrastructure projects in Canada, Egis has increased in ranking on the Top100 Projects Report in 2025.

The annual listing, published by ReNew Canada magazine, ranks Canada's largest infrastructure projects based on total dollar investment, and the companies driving Canada's public infrastructure sector forward. The report categorizes key players by number of projects involved; Egis increased from Silver to Gold in 2025.

Egis is involved in 15 of the biggest projects this year, moving up from 10 in 2024. They include some of the most important and transformative projects in Canada, like GO Expansion On-Corridor, Gordie Howe International Bridge, and Ontario Line.

Greg Northcott, CEO of Egis in Canada, notes, "Thank you to ReNew Canada for recognizing Egis' growing contribution to transformative Canadian infrastructure projects. Our expanding presence in Canada is enabling us to take on larger and more ambitious projects, and we are committed to providing sustainable and innovative solutions for critical infrastructure."

Jean Steenhout, Chief Commercial Officer, Egis in Canada, says, "We are proud to bring our expertise to contribute to the success of these significant projects, adding to our reputation as an essential partner on major project delivery. Egis is managing the world's most ambitious and complex projects, and we bring the best local and international practices to projects in Canada."

About Egis

IMAGINE. CREATE. ACHIEVE.
a sustainable future

Egis is an international player active in architecture, consulting, construction engineering and mobility services. We create and operate intelligent infrastructures and buildings that respond to the climate emergency and contribute to more balanced, sustainable and resilient territorial development.

Operating in 100 countries, Egis puts the expertise of its 20,000 employees at the service of its clients and develops cutting-edge innovations accessible to all projects. Through its wide range of activities, Egis is a key player in the collective organisation of society and the living environment of citizens all over the world.
