A simple guide to **changing your vehicle.**

Ready to upgrade your car, van, or motorbike?
We're here to make the process simple and stress-free!

Step 1

Get your settlement figure

Get in contact with our team to find out how much you still owe on your finance agreement.

Click the button below to message our team on WhatsApp or call us on 01942 686 687.

Chat on WhatsApp

Step 2

Work out your car's value vs. what you owe

To find out what your vehicle is worth you can:

- **Contact us** and we'll carry out a quick, free vehicle valuation.
- **Ask a dealership** for a part exchange valuation.

Vehicle value – settlement figure = equity

Positive equity is extra money you can use as a deposit.
Negative equity is added to your next finance agreement.

Step 3

Get a quote

Find out how much your repayments could be on a new car, van, or motorbike by getting a quote – it takes minutes.

If you're happy with your quote, you can move forward with an application.

Need help finding a vehicle?

You don't have to go on this journey by yourself! We can:

- **Source a vehicle** for you
- Send you a **list of trusted dealerships**
- Help you **buy from our own dealership**, Motopeople

Step 4

Finalise your application

We'll need to run through some details to understand your current financial circumstances and finalise your approval.

We'll send you the legal documentation to read through - if you're happy, you can go ahead and **sign the paperwork** and then **drive away** in your new vehicle!
