# Important Notice

This document constitutes a financial promotion pursuant to section 21 of the Financial Services and Markets Act 2000 ("FSMA") and is issued by Foresight Group LLP ("Foresight") on 26 July 2024, which is authorised and regulated in the United Kingdom ("UK") by the Financial Conduct Authority ("FCA"), under firm reference number 198020.

This document relates to the Foresight Accelerated Inheritance Tax Solution ("Foresight Accelerated ITS") which is part of the Foresight Inheritance Tax Fund ("Fund"). This document is only a summary and should be read alongside the Foresight Accelerated Inheritance Tax Solution Investor Guide dated 26 July 2024 ("Investor Guide"). Definitions in the Investor Guide apply to this document.

This document is addressed and distributed by Foresight to financial advisers that are authorised and regulated by the FCA. Investment in the Fund is only permitted through financial advisers. Financial advisers are required to explain to clients the risks of investing in the product and confirm the product is suitable for their clients. Financial advisers should only provide this document to potential investors if provided together with the Investor Guide, highlighting the FCA Prescribed Risk Warning section at the beginning of the document.

It is important to read the Investor Guide in full, in particular the customer agreement, and understand the key risks that are set out in that document, before a potential investor comes to an investment decision. An investment in the Fund is NOT suitable for all investors.

Applications to invest in the Fund through the Foresight Accelerated ITS will only be accepted on the basis of the content and terms of the Investor Guide. Foresight cannot provide legal, tax, financial or investment advice. Foresight has taken all reasonable care to ensure that all the facts stated in this document are true and accurate in all material respects. Assumptions, estimates and opinions contained in this document constitute our judgement as of the date of the document and are subject to change without notice. Any forward-looking statements or projections are based on a number of assumptions as to market conditions and there can be no guarantee that any projected results will be achieved.

Tax reliefs are dependent on individual circumstances and any reference to tax laws or levels in this document is subject to change. There can be no guarantee that the Fund's investments will continue to qualify for Business Relief ("BR"). A failure to meet the BR qualifying requirements could result in the investments losing their inheritance tax exempt status, resulting in adverse tax consequences for investors. The value of an investment could go down as well as up and it should be considered a long-term investment. Investing in unquoted shares may expose you to a significant risk of losing all of the money you invest. Past performance is not a guide to future performance and may not be repeated.

Foresight Accelerated ITS is an integrated Business Relief and insurance solution that gives investors immediate inheritance tax mitigation. For investment, insurance cover is only available to investors who meet the eligibility criteria for the relevant insurance category. Failure to meet such criteria or a misrepresentation in the eligibility declaration could result in the Insurer refusing to settle an investor's claim under the insurance policies.

# A Summary of the Foresight Accelerated Inheritance Tax Solution

The Foresight Inheritance Tax Fund was established over ten years ago and since then has received over £1.5bn of investment from investors seeking to pass on more wealth to their families.

## Foresight Accelerated ITS

The Foresight Accelerated ITS uniquely blends Business Relief (BR) with life insurance.

### 1. Business Relief (BR)

The BR element should render shares exempt from an IHT liability after two years.

### 2. Life Insurance

The insurance element provides protection during the initial two-year period.

This innovative solution immediately improves your chances of successful Inheritance Tax (IHT) mitigation.

## Speed

An investment into BR qualifying shares can protect from IHT after being held for two years.

This represents a faster way to plan for IHT than other IHT solutions like Trusts or Gifts, which take seven years to become fully exempt from IHT.

Designed for investors looking for peace of mind that their IHT bill will be taken care of, Foresight Accelerated ITS benefits from life insurance during the first two years of investment, materially increasing the chances of successful IHT mitigation compared to other solutions.
