

Foresight Global Real Infrastructure (Lux) Fund Factsheet

30 September 2024

The Fund invests in developed market “real infrastructure” companies that own or operate critical infrastructure assets which ensure the smooth functioning of economies, and that provide a net social or environmental benefit. The Manager takes an active approach to investing in infrastructure companies with high quality, predictable and often inflation linked cash flows from strong counterparties. The Fund seeks to grow, over any 5-year period, by more than 3% per annum above the rate of UK inflation (as measured by the UK Consumer Prices Index).

Investment Objectives

- To grow, over any 5 year period, by more than 3% above the rate of UK inflation (as measured by UK CPI).

Investment Philosophy

- Generate strong risk adjusted returns over the long term by taking a private markets approach to public market investments. Foresight Capital Management (“FCM”) are sustainability-led investors and take a forward-looking approach to evaluate risk and return prospects.
- Own companies that operate in industries with secular and supportive tailwinds, resulting in attractive options for the deployment of capital.
- Own companies whose strengths and qualities enables them to generate sufficient cash flow to drive shareholder value through growth initiatives, dividends, or share buy backs.
- Own companies with management teams who are good stewards and allocators of capital, and which have a clear and understandable business strategy.

*Following guidance issued by the Investment Association in November 2023, the synthetic OCF calculation now excludes all close ended vehicles. The difference between the AMC and OCF is due to synthetic expenses from money market funds. The Fund's operational expenses are capped and taken from the AMC.

About the Manager

Foresight Group was founded in 1984 and is a leading listed infrastructure and private equity investment manager. With a long-established focus on ESG and sustainability-led strategies, it aims to provide attractive returns to its institutional and private investors from hard-to-access private markets. Foresight manages over 400 infrastructure assets with a focus on solar and onshore wind assets, bioenergy and waste, as well as renewable energy enabling projects, energy efficiency management solutions, social and core infrastructure projects and sustainable forestry assets.

As a leader and innovator in sustainability-led investment strategies, FCM is well placed to develop and implement actively managed investment strategies to address the evolving investment landscape.

FCM manages four strategies across seven investment vehicles, with core investment competencies covering renewable energy, the energy transition, infrastructure, real estate and sustainable equity. The team draws on the wider Group's experience of investing in private markets through the other divisions and applies these skills and knowledge to investing in public markets.

Foresight operates in eight countries across Europe, Australia and United States with AUM of £12.1 billion*. Foresight Group Holdings Limited listed on the Main Market of the London Stock Exchange in February 2021.

Risk and Reward Profile

Lower Risk Typically Lower Rewards				Higher Risk Typically Higher Rewards		
1	2	3	4	5	6	7

This indicator above is not a measure of the risk of capital loss, but an estimated measure of the Fund's price movement over time. It is based on historical data, and thus may not be a reliable indication of the future risk profile of the Fund. The Fund appears as a '6' on the scale. This is because it invests in the infrastructure industry and the Fund's simulated and/or realised return has experienced high rises and falls historically. For full details of the Fund's risks please see the Foresight SICAV Prospectus, which is available [here](#).

Main Risks

- Investing in assets denominated in a currency other than that of the investor's own currency exposes the value of the investment to exchange rate fluctuations
- Where a Fund has exposure to alternative asset classes there is a risk that the price at which an asset is valued may not be realisable in the event of sale. This could be due to a mis-estimation of the asset's value or due to a lack of liquidity in the relevant market. As a result, at times, the Company may have to delay acting on instructions to sell investments, and the proceeds on redemption may be materially less than the value implied by the Fund's price.
- Infrastructure companies may be subject to a variety of factors that may adversely affect their business or operations, including but not limited to: high interest costs in connection with capital construction programmes, political and economic news, government policy, high leverage, changing market sentiments.
