Investment Objectives

- To generate income and preserve capital with potential for capital growth over an investment term of 5 years.

Investment Philosophy

- Generate strong risk adjusted returns over the long term by taking a private markets approach to public market investments. FCM are sustainability-led investors and take a forward-looking approach to evaluate risk and return prospects.
- Own companies that operate in industries with secular and supportive tailwinds, resulting in attractive options for the deployment of capital.
- Own companies whose strengths and qualities enables them to generate sufficient cash flow to drive shareholder value through growth initiatives, dividends, or share buy backs.
- Own companies with management teams who are good stewards and allocators of capital, and which have a clear and understandable business strategy.

*Following guidance issued by the Investment Association in November 2023, the synthetic OCF calculation now excludes all close ended vehicles. The difference between the AMC and OCF is due to synthetic expenses from money market funds. The Fund's operational expenses are capped, and taken from the AMC.

About the Manager

Foresight Group was founded in 1984 and is a leading listed infrastructure and private equity investment manager. With a long-established focus on ESG and sustainability-led strategies, it aims to provide attractive returns to its institutional and private investors from hard-to-access private markets. Foresight manages over 400 infrastructure assets with a focus on solar and onshore wind assets, bioenergy and waste, as well as renewable energy enabling projects, energy efficiency management solutions, social and core infrastructure projects and sustainable forestry assets.

As a leader and innovator in sustainability-led investment strategies, Foresight Capital Management ("FCM") is well placed to develop and implement actively managed investment strategies to address the evolving investment landscape.

FCM manages four strategies across seven investment vehicles, with core investment competencies covering renewable energy, the energy transition, infrastructure, real estate and sustainable equity. The team draws on the wider Group's experience of investing in private markets through the other divisions and applies these skills and knowledge to investing in public markets.

Foresight operates in eight countries across Europe, Australia and United States with AUM of £12.4 billion*. Foresight Group Holdings Limited listed on the Main Market of the London Stock Exchange in February 2021.

*Based on unaudited AUM as at 31 December 2023

Risk and Reward Profile

This indicator above is not a measure of the risk of capital loss, but an estimated measure of the Fund's price movement over time. It is based on historical data, and thus may not be a reliable indication of the future risk profile of the Fund. The Fund appears as a '5' on the scale. This is because it invests in the infrastructure industry and the Fund's simulated and/or realised return has experienced high rises and falls historically.

For full details of the Fund's risks please see the FP Foresight OEIC Prospectus, which is available [here](#).
