LONDON WALL MORTGAGE CAPITAL PLC

STRATEGIC REPORT

The directors present their strategic report for London Wall Mortgage Capital Plc (the “Company”) for the year ended 31 December 2024.

General Company Information

The Company was incorporated in England and Wales on 11 February 2016 as a public limited company with the registered number of 10001337.

Principal activity, Objective, Business Model and Review of the Year

The Company was set up as a special purpose vehicle to establish a residential mortgage-backed securities programme whereby it may from time-to-time issue floating and fixed rate Loan Notes (“Notes”) in separate segregated Series (each being a “Series”). There is no cross collateralisation or comingling between any of the Series issued, or to be issued, under the programme, and each Series has its own separate features as indicated in the relevant Series Prospectus (including, without limitation, its own assets, Notes and Deferred Consideration Instruments (“DCIs”), credit structure and cash flows) which are able to be separately enforced. There is no limit to the programme size. The proceeds of each Series Note issuance are currently used to acquire the beneficial interest in residential buy-to-let mortgage loans (the “loans”) from London Wall Capital Investments LLP (the “LLP” or the “Seller”) or from one of the LLP’s Investment Members directly. The Company has an agreement in place with mortgage servicers (“Servicers”) to manage the loans on a day to day basis.

The Company entered into interest rate swaps (IRS) specifically to economically hedge the interest rate risk on the fixed rate mortgages within certain Series. Instruments such as derivatives must be measured at Fair Value Through Profit or Loss (FVTPL). In addition, the Series issuance resulted in the recognition of the DCIs at FVTPL. Measuring the mortgage loans and notes liabilities within certain Series at amortised cost results in an accounting mismatch between the financial instruments measured at FVTPL and the instruments measured at amortised cost within the individual Series. In order to reduce the measurement mismatch, the Company has elected to designate the mortgage loan assets and loan note liabilities at FVTPL in accordance with IFRS 9.

On 15 August 2024, the Company issued a further Series of Notes, Series 2024-1, to acquire a further portfolio of mortgages. Details of the Series Notes in issue at 31 December 2024, all of which are listed on the London Stock Exchange, are summarised below with further details set out in note 13.

Series	Date Notes issued	Principal amount of A to X Notes	Maturity date	Call option date
		£000		
Series 2021-1	17 May 2021	192,039	15 May 2051	15 May 2026
Series 2021-2	30 Nov 2021	164,926	15 May 2052	15 May 2026
Series 2024-1	15 Aug 2024	307,540	15 May 2057	15 Nov 2027

In addition to the Series Notes issued, the Company has also issued DCIs for each Series as shown below. The DCIs have a nil par value (2023: £nil). The R DCIs (“Residual Deferred Consideration Instruments”) for all the series are the residual Notes which are entitled to the excess profits after payment of all other expenses as per series waterfall.

LONDON WALL MORTGAGE CAPITAL PLC

STRATEGIC REPORT (continued)

Principal activity, Objective, Business Model and Review of the Year (continued)

Details of the DCIs outstanding at 31 December 2024 are shown below.

Series	Number of R DCIs outstanding
Series 2021-1	1,000,000
Series 2021-2	1,000,000
Series 2024-1	1,000,000

The respective LLP investment members of the series hold all the R DCIs for the respective Note issuances. The investment members also hold the Notes listed below for risk retention purposes:

Series	Notes class					
	Z1	Z2	Z3	Z	S	A to E and X
Series 2021-1	100%	100%	100%	n/a	100%	-
Series 2021-2	n/a	n/a	n/a	100%	100%	Not less than 5%
Series 2024-1	n/a	n/a	n/a	n/a	n/a	Not less than 5%

During the year, £ 101,571,000 (2023: £163,803,000) of the Loan Notes were redeemed in line with the redemption of the underlying mortgage loans. The results for the year are set out on page 18 and the key results for the year are summarised in the KPI section below.

Key Performance Indicators (KPIs)

Financial KPIs

Recoverability of the mortgage loans is a key performance indicator. The quarterly investor reports contain a range of data on the performance of the mortgage portfolio including payment arrears, Loan to Value percentages and restructured mortgages. As at 31 December 2024, the KPIs for the Company as a whole, are shown in the table below:

	2024	2024	2023	2023
	Number of mortgages	£000	Number of mortgages	£000
Mortgage loan in arrears	42	10,702	1	103
Mortgage loans in default	76	17,855	1	449
Mortgage loans restructured	-	-	-	-

A mortgage loan is defined as being in arrears when the borrower goes into payment arrears of up to 90 days. A mortgage loan is defined as being in default when the borrower goes into payment arrears in excess of 90 days or it is determined that the mortgage loan can no longer be repaid.

The current Loan-to Value ("LTV") for all the underlying mortgages ranges from 0.09% to 92.66% (2023: 8.35% to 82.08%). The highly collateralised buy-to-let mortgages and the availability of £9,406,000 (2023: £11,190,000) credit enhancements will provide support should the Company incur a loss in the event of a default. See Note 17 – Credit risk section.

Financial risk management and objectives

The main risks that could affect the Company are credit, interest, price, liquidity and operational risks. These include the correct and timely receipt of interest and principal on the mortgage loans.

LONDON WALL MORTGAGE CAPITAL PLC

STRATEGIC REPORT (continued)

Financial risk management and objectives (continued)

Credit risk

Credit risk is the risk that the borrowers of the underlying mortgage loans will not be able to meet their obligations as they fall due. For each Series, the underlying mortgage loans are required to adhere to specific lending criteria and late payments are subject to regular reviews by Fleet Mortgages Limited ("Fleet"), Charter Court Financial Services Limited ("Charter") and The Mortgage Lender Limited ("TML"), collectively the Originators and Servicers of the mortgages, to ensure credit risks are identified on a timely basis and losses are minimised. The Company has appointed Citibank as the Cash Manager to produce quarterly portfolio performance reports for each Series.

Market risk

Market risk is the risk that changes in market prices will affect the Company's income or the value of the financial instruments. Market risk comprises foreign currency risk, interest rate risk and price risk.

Foreign currency risk

All transactions and financial instruments are denominated in the Company's functional currency (pound sterling) and consequently no currency exposure arises.

Interest rate risk

Interest rate risk exists where assets and liabilities have interest rates set under different bases or which reset at different times. The Company has issued various Series of floating rate Notes and the underlying mortgage loans are both fixed and floating rate loans. The Company hedges its interest rate risk on the underlying fixed rate mortgage loans by entering into swap agreements with suitably rated counterparties. As a result, the Company does not have a material net interest rate risk exposure.

Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its seller, or factors affecting similar financial instruments traded in the market. The Company is exposed to price risk because of changes in the market values of the mortgage loans. The Notes issued by the Company are Limited recourse in nature and the Company is only expected to pay its Noteholders to the extent of the income it receives. The Company therefore has no material price risk because it can only pay out what it receives.

The fair value of the mortgages loans is the net fair value of all financial instruments which gives the Company a net asset value which equals the equity balance. As a result, any change in fair value of the Loan Notes or derivatives will have an equal but opposite effect on the fair value of the mortgage loans, resulting in no impact on the Company.

LONDON WALL MORTGAGE CAPITAL PLC

STRATEGIC REPORT (continued)

Financial risk management and objectives (continued)

Liquidity risk

Liquidity risk is the risk that the Company will default on its obligations to its creditors. For the purposes of managing this risk, the cash manager ensures that all monies received are paid in accordance with an agreed Series waterfall. The Company is structured so that its assets and liabilities are organised into separate Series, reflecting a “protected cell” approach where assets are allocated to specified pools which secure liabilities owing to specified secured creditors which can be separately enforced. The Company maintains Series specific reserve funds to cover any revenue or principal shortfalls.

Operational risk

Operational risk is the risk of loss arising from inadequate or failed internal processes, people and systems within one or more of the Company’s third party providers or from external events. For all Series, the Company appointed Fleet, Charter and TML as its mortgage Servicers and Citibank as its cash manager and bank account provider. Mortgage Servicer operational risk is mitigated by having a back-up Servicer in place. The cash manager has adequate back-up facilities in case of operational failure and where the Company finds the need to terminate the services of the cash manager, a grace period is given to find a suitable replacement under the terms of the transaction documents.

Capital Structure

The capital structure of the Company consists of the debt and equity comprising of issued share capital and retained earnings as disclosed in the Statement of Financial Position, attributable to the note trustee and the share trustee (The Law Debenture Intermediary Corporation plc), respectively. The Company’s objectives when managing share capital are to safeguard its ability to continue as a going concern in order to maintain an optimal capital structure to reduce the cost of capital. This was considered at the onset of the transaction by issuing the underlying mortgages for all Series to prime borrowers who are expected to have a lower risk of default. The cost of capital was also considered by agreeing most of the Series fees upfront. The Company is not subject to any external capital requirements except the minimum requirement for issued share capital for a plc under the Companies Act 2006. The Company has not breached the minimum requirement.

Going concern

The Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for a period of at least 12 months from the date of this report. Further detail is set out in note 1.

LONDON WALL MORTGAGE CAPITAL PLC

STRATEGIC REPORT (continued)

Derivatives and other financial instruments

The Company's financial instruments comprise the mortgage loans, interest rate swaps, the Loan Notes, cash and other liquid resources, and various other items, such as trade and other receivables and payables that arise directly from its operations. The swaps are entered into for managing interest rate risk.

Future developments

The Company's business model is set out above. The Company intends to issue further Note Series in due course but this will be dependent upon the securitisation market and continued availability of suitable mortgage portfolios to acquire, accepting that the market for new mortgages may fluctuate according to factors beyond the Company's control, such as interest rates, unemployment, house prices and inflation amongst other factors.

All the underlying property collateral backing the mortgage assets in the Company are in the UK and hence the Company's prospects are closely linked to economic conditions in the UK. Monthly borrower repayments are monitored closely by the Servicer to ensure any potential or actual borrower defaults are identified and managed closely to mitigate losses to the Company.

By order of the board,

Details of future developments can be found in the Strategic Report and form part of this report by cross reference.

Events after Statement of Financial Position date

Please see note 20 for details of significant events after the Statement of Financial Position date.

Going concern

Details of the Company's ability to continue as a going concern can be found in the strategic report and note 1 and form part of this report by cross reference.

DIRECTORS' REPORT (continued)

Corporate governance

The directors have been charged with governance in accordance with the transaction documents detailing the mechanism and structure of the Company. The structure of the Company is such that the key policies have been predetermined at the time of issuance of the various Note Series and the operational roles have been assigned to third parties and these are strictly governed by the transaction documents.

The transaction documents provide for procedures that have been designed for safeguarding assets against unauthorised use or disposition; for maintaining proper accounting records and for the reliability and usefulness of financial information used within the Company or for publication. Such procedures are designed to manage rather than eliminate the risk of failure to achieve business objectives whilst enabling the directors to comply with the regulatory obligations.

Due to the nature of all of the Note Series issued (excluding the DCIs), each of which is listed on the London Stock Exchange, the Company is exempt from the provisions of UK Corporate Governance Code and the Disclosure and Transparency Rules (DTR) of the Financial Conduct Authority with the exception of DTR 7.2.5. The directors are therefore satisfied that there is no requirement for an audit committee or to publish a corporate governance statement.

DTR 7.2.5 requires a description of the main features of the issuer's internal control and risk management systems in relation to the financial reporting process. The directors are responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of failure to achieve the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss. The directors have established processes regarding internal control and risk management systems to ensure its effective oversight of the financial reporting process. The directors are responsible for evaluating and discussing significant accounting and reporting issues as the need arises. The directors are also responsible for examining and evaluating the external auditors' performance, qualifications and independence.

As a special purpose vehicle, the Company has no physical presence or operations and accordingly has minimal impact on the community and the environment.

Section 172(1) statement

Section 172 (1) of Companies Act 2006 requires directors to act in the way they consider, in good faith, would be most likely to promote the success of the Company for the benefit of its members as a whole, and in doing so have regard (amongst other matters) to:

- a) The likely consequences of any decision in the long term
- b) The interests of the Company's employees
- c) The need to foster the Company's business relationships with suppliers, customers and others,
- d) The impact of the Company's operations on the community and the environment
- e) The desirability of the Company maintaining a reputation for high standards of business conduct and
- f) The need to act fairly as between members of the Company

As a special purpose vehicle, the governance structure of the Company is such that the policies have been predetermined at the time of the issuance. The Directors have had regards to the matters set out in section 172(1) of the Companies Act 2006 as follows:

LONDON WALL MORTGAGE CAPITAL PLC

DIRECTORS' REPORT (continued)

Section 172(1) statement (continued)

- the transaction documents have been formulated to achieve the Company's purpose and business objectives, safeguard the assets and promote the success of the Company with a long term view and as disclosed in note 1 in accordance with relevant securitisation legislation the Company is only permitted to retain minimal profit;
- the Company has no employees;
- the Company is a securitisation vehicle and therefore the key stakeholders are the noteholders. The transaction documents determine the nature and quality of assets that can be securitised and how the cash flows from securitised assets are distributed. Relationships are also fostered with suppliers and others via professional third parties who have been assigned operational roles and they are strictly governed by the transaction documents and fee arrangements agreed in advance. The Company has no customers;
- as a securitisation vehicle the Company has no physical presence or operations and accordingly has minimal impact on the community and the environment;

The Company maintains a reputation for high standards of business conduct via professional third parties who have been assigned operational roles. Fee arrangements have been agreed in advance and supplier invoices paid in accordance with the transaction documents including a priority of payments, if applicable.

Task Force on Climate-related Financial Disclosures (TCFD)

The Company is exempt from the TCFD disclosures because it is not trading company, a bank nor an insurance company.

Capital structure

Details of the capital structure can be found in the Strategic Report and form part of this report by cross reference.

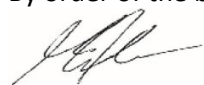

Auditor

Pursuant to Section 487 of the Companies Act 2006, Ernst and Young Chartered Accountants, Dublin have been appointed as auditor of the Company and have expressed their willingness to continue in office as auditor. A resolution for their reappointment as auditor to the Company will be proposed at the forthcoming Annual General Meeting.

Disclosure of information to auditors

The directors who held office at the date of approval of this directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the Company's auditor is unaware; and each director has taken all the steps that he/she ought to have taken as a director to make himself/herself aware of any relevant audit information and to establish that the Company's auditor is aware of that information. This confirmation is given and should be interpreted in accordance with the provisions of s418 of the Companies Act 2006.

By order of the board,

.....
Mark Filer – For and on behalf of L.D.C. Securitisation Director No.3 Limited
Director

Date: 17 April 2025

STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE FINANCIAL STATEMENTS

Directors' responsibilities statement

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law, the directors have elected to prepare the financial statements in accordance with International accounting standards as adopted by the UK in conformity with the requirements of the Companies Act 2006. Under company law, the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the Companies Act 2006 requires that directors to:

- properly select and apply accounting policies;
- make accounting judgements and estimates that are reasonable and prudent;
- present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- provide additional disclosures when compliance with the specific requirements in International Financial Reporting Standards (IFRSs) are insufficient to enable users to understand the impact of particular transactions, other events and conditions on the entity's financial position and financial performance; and
- make an assessment of the Company's ability to continue as a going concern.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF LONDON WALL MORTGAGE CAPITAL PLC

Opinion

We have audited the financial statements of London Wall Mortgage Capital plc (the "Company") for the year ended 31 December 2024 which comprise the Statement of financial position, the Statement of comprehensive income, the Statement of changes in equity, the Cash flow statement and the related notes 1 to 20, including material accounting policy information. The financial reporting framework that has been applied in their preparation is applicable law and UK adopted international accounting standards.

In our opinion, the financial statements:

- give a true and fair view of the Company's affairs as at 31 December 2024 and of its profit for the year then ended;
- have been properly prepared in accordance with UK adopted international accounting standards; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard as applied to listed public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate. Our evaluation of the directors' assessment of the Company's ability to continue to adopt the going concern basis of accounting included;

- Confirming our understanding of management's going concern assessment process and engaging with management to understand the key factors, which were considered in their assessment;
- Obtaining management's going concern assessment, which covers a period of at least a year from the date of approval of the financial statements and reviewing the key factors considered by management in making their assessment of going concern;
- Obtaining and reviewing each of the Series Prospectuses and other legal documents for the Company in order to understand and assess the legal structure of the Company, contractual events of default and the limited recourse nature of the loan notes;

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF LONDON WALL MORTGAGE CAPITAL PLC (CONTINUED)

Conclusions relating to going concern (continued)

- Performing an independent reverse stress test to establish whether the Company has sufficient liquidity to meet its obligations as they fall due;
- Considering post year-end performance and making inquiries of management of any other subsequent events, which might give rise to conditions which could lead management to discontinue the operations of the Company;
- Reviewing the Company's going concern disclosures included in the annual report in order to assess that the disclosures were appropriate and in conformity with the reporting standards.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of 12 months from the date the Annual Report and Accounts are approved.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Company's ability to continue as a going concern.

Overview of our audit approach

Key audit matters	<ul style="list-style-type: none"> • Valuation of long-term borrowings, R DCIs and mortgage loans
Materiality	<ul style="list-style-type: none"> • Overall materiality of £6.69m which represents 1% of the loan notes, including the long-term borrowings and R DCIs.

An overview of the scope of our audit

Tailoring the scope

Our assessment of audit risk, our evaluation of materiality and our allocation of performance materiality determine our audit scope for the company. This enables us to form an opinion on the financial statements. We take into account size, risk profile, the organisation of the company and effectiveness of controls, the potential impact of climate change and changes in the business environment when assessing the level of work to be performed. All audit work was performed directly by the audit engagement team.

Climate change

In planning and performing our audit we assessed the potential impacts of climate change on the Company's business and any consequential material impact on its financial statements. We also challenged the Directors' considerations of climate change risks in their assessment of going concern and associated disclosures. Based on our work we have not identified the impact of climate change on the financial statements to be a key audit matter or to impact a key audit matter.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF LONDON WALL MORTGAGE CAPITAL PLC (CONTINUED)

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) that we identified. These matters included those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in our opinion thereon, and we do not provide a separate opinion on these matters.

Risk	Our response to the risk	Key observations communicated to the Board of Directors
<p>Valuation of long-term borrowings (2024: £657.82m (2023: £387.60m)), R DCIs (2024: £11.37m (2023: £6.82m)) and mortgage loans (2024: £633.22m (2023: £389.85m))</p> <p><i>Refer to the; Accounting policies (page 25); and Note 8 (page 30), Note 13 (page 32) and Note 14 (page 33) of the Financial Statements</i></p> <p>We have considered valuation of long-term borrowings, R DCIs and mortgage loans as a key audit matter for the financial year because it significantly impacts the value and performance of the loan notes and R DCIs. We have identified this as a significant risk.</p>	<p>We have obtained an understanding of the process to value the long-term borrowings, R DCIs and mortgage loans.</p> <p>We have obtained the listing of all long-term borrowings, R DCIs and mortgage loans as at year-end and assessed the reasonableness of the valuation by performing the following procedures:</p> <p>We independently confirmed the quotes for the long-term borrowings and R DCIs with the broker, which were used to determine their fair value.</p> <p>We recomputed the fair value for each class of loan notes included within long-term borrowings, as well as for the R DCIs.</p> <p>We involved our internal specialists to develop a reasonable range of value for each class of loan notes included within long-term borrowings, as well as for the R DCIs, and we checked that the Company's fair value fell within that range.</p> <p>Where available, we obtained a price from Bloomberg for the various classes within each series of loan notes and compared that to the Company's value.</p> <p>We recalculated the value of the mortgage loans, using the inputs determined by management and assessed that those inputs were appropriate, accurate and complete.</p>	<p>No issues have been noted from the performance of our procedures over this key audit matter.</p>

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF LONDON WALL MORTGAGE CAPITAL PLC (CONTINUED)

Our application of materiality

We apply the concept of materiality in planning and performing the audit, in evaluating the effect of identified misstatements on the audit and in forming our audit opinion.

Materiality

The magnitude of an omission or misstatement that, individually or in the aggregate, could reasonably be expected to influence the economic decisions of the users of the financial statements. Materiality provides a basis for determining the nature and extent of our audit procedures.

We determined materiality for the company to be £6.69 million (2023: £3.94 million), which is 1% of the long-term borrowings and R DCIs. We believe that the long-term borrowings and R2 DCIs provide us with the most appropriate basis to base determine materiality, because the Company has been established as a securitisation vehicle to invest into through the loan notes issued by the Company.

During the course of our audit, we reassessed initial materiality based on 31 December 2024 financial statement amounts and adjusted our audit procedures accordingly.

Performance materiality

The application of materiality at the individual account or balance level. It is set at an amount to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds materiality.

On the basis of our risk assessments, together with our assessment of the Company's overall control environment, our judgement was that performance materiality was 75% (2023: 50%) of our planning materiality, namely £5.02 million (2023: £1.97 million). We have increased performance materiality to this percentage, due to our assessment that there is a reduced risk of misstatements being identified, considering the results and findings in the previous audit of the Company.

Reporting threshold

An amount below which identified misstatements are considered as being clearly trivial.

We agreed with the Board of Directors that we would report to them all uncorrected audit differences in excess of £0.33 million (2023: £0.197 million), which is set at 5% of planning materiality, as well as differences below that threshold that, in our view, warranted reporting on qualitative grounds.

We evaluate any uncorrected misstatements against both the quantitative measures of materiality discussed above and in light of other relevant qualitative considerations in forming our opinion.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF LONDON WALL MORTGAGE CAPITAL PLC (CONTINUED)

Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF LONDON WALL MORTGAGE CAPITAL PLC (CONTINUED)

Responsibilities of directors

As explained more fully in the directors' responsibilities statement set out on page 9, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect irregularities, including fraud. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the Company and management.

- We obtained an understanding of the legal and regulatory frameworks that are applicable to the Company and determined that the most significant are UK adopted international accounting standards, the Companies Act 2006, tax legislation and the London Stock Exchange Listing Rules.
- We understood how London Wall Mortgage Capital Plc is complying with those frameworks by making inquiries of management and those charged with governance, as well as reviewing minutes of meetings of the board of directors.
- We assessed the susceptibility of the Company's financial statements to material misstatement, including how fraud might occur by considering the controls in place to address the risks of fraud identified by the Company or that otherwise seek to prevent, deter or detect fraud.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF LONDON WALL MORTGAGE CAPITAL PLC (CONTINUED)

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud (continued)

- Based on this understanding we designed our audit procedures to identify non-compliance with such laws and regulations. Our procedures involved making inquiries of management and those charged with governance regarding known or suspected instances of non-compliance with applicable laws and regulations, reviewing minutes of meetings of the board of directors, performing analytical reviews to identify unusual balances or transactions and examining journal entries and operating expenses in the Company.
- As the Company operates in a specialized area, the Audit Engagement Partner checked that the engagement team collectively had the appropriate competence and capabilities to identify or recognise non-compliance with laws and regulations, and address those matters about non-compliance with laws and regulations and fraud that were communicated to the engagement team.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

Other matters we are required to address

- We were appointed by the Company on 25 January 2024 to audit the financial statements for the year ending 31 December 2023 and subsequent financial periods.
- The period of total uninterrupted engagement including previous renewals and reappointments is two years, covering the years ending 31 December 2023 to 31 December 2024.
- The non-audit services prohibited by the FRC's Ethical Standard were not provided to the Company and we remain independent of the Company in conducting the audit.
- The audit opinion is consistent with the additional report to the Board of Directors.

Use of our report

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Kieran Daly (Senior Statutory Auditor)

for and on behalf of Ernst & Young Chartered Accountants and Statutory Audit Firm

Dublin, 22 April 2025

STATEMENT OF FINANCIAL POSITION

As at 31 December 2024

Cash and cash equivalents at the beginning of the year		13,230	45,008
Cash and cash equivalents at the end of the year	10	59,809	13,230

The notes on pages 21 to 45 form part of these financial statements.

¹ During the year, the Company changed the Statement of Cash Flow presentation to show the interest income and the interest received on mortgage loans for ease of understanding for the users of the financial statements. This change in presentation is not a result of any error and has had no impact on the previously stated results.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2024

1. Material Accounting Information**General information**

The Company was incorporated in England and Wales on 11 February 2016 as a public limited company with the registered number of 10001337.

The Company was set up as a special purpose vehicle to establish a residential mortgage-backed securities programme whereby it may from time-to-time issue floating and fixed rate Loan Notes ("Notes") in separate segregated Series (each being a "Series"). There is no limit to the programme size. The proceeds of each Series Note issuance are currently used to acquire the beneficial interest in residential buy-to-let mortgage loans (the "loans") from London Wall Capital Investments LLP (the "LLP" or the "Seller") or from one of the LLP's Investment Members directly. The LLP is also the programme Servicer and the Investment Members are separate funds that their money into the LLP to enable it to carry on its business.

The following accounting policies, unless otherwise stated, have been applied consistently in dealing with items which are considered material in relation to the financial statements.

Basis of accounting

The financial statements have been prepared in accordance with International Accounting Standards in conformity with the requirements of the Companies Act 2006, and with International Financial Reporting Standards (IFRS) as issued by the IASB. The financial information has been prepared on a fair value basis.

The Company has availed of the option to measure the financial assets and liabilities of Series 2021-1, Series 2021-2 and Series 2024-1 at fair value on initial recognition. The Company has entered into interest rate swaps (IRS) specifically to economically hedge the interest rate risk on the fixed rate mortgages within Series 2021-1 and 2021-2. Instruments such as derivatives must be measured at FVTPL. In addition, the Series issuance resulted in the recognition of the DCIs at fair value through profit or loss. Measuring the mortgage loan and notes liabilities within each Series at amortised cost results in an accounting mismatch between the financial instruments measured at FVTPL and the instruments measured at amortised cost within the individual Series. In order to reduce the measurement mismatch, the company has elected to designate the mortgage loan assets and loan note liabilities at FVTPL.

Currency presentation

The functional currency of the Company is considered to be pounds sterling because that is the currency of the primary economic environment in which the Company operates. The financial information is presented in pounds sterling and amounts have been presented in round thousands ("£000s") unless otherwise stated.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2024

1. Material Accounting Information (continued)**Going concern**

At 31 December 2024, the Company had the following three Series (2023: two Series) in issue:

Series	Date securitised	Maturity date	Call option date	Fair value of mortgage assets		Fair value of Notes issued	
				31/12/2024 £'000	31/12/2023 £'000	31/12/2024 £'000	31/12/2023 £'000
2021-1	17 May 2021	15 May 2051	15 May 2026	203,195	213,332	187,723	205,149
2021-2	30 Nov 2021	15 May 2052	15 May 2026	163,357	176,526	162,559	182,453
2024-1	15 Aug 2024	15 May 2057	15 Nov 2027	266,664	-	307,540	-

The Company issues floating rate loan Notes in separate segregated Series. There is no cross collateralisation or comingling of funds between any of the Series issued, or to be issued, under the programme. Each Series has its own separate features as indicated in the relevant Series Prospectus (including, without limitation, its own bank account, assets, Notes and deferred consideration instruments ("DCIs"), credit structure and cash flows) and is able to be separately enforced. Transactions are made to and from specific bank accounts as per Series issue documents and there is a priority of payments in place for paying expenses.

The proceeds of each Series Note issuance are used to acquire the beneficial interest in buy-to-let mortgage loans. Management's intention is to issue more Notes and use the proceeds to purchase more beneficial interests in mortgage loans.

The going concern of the Company depends primarily on its liquidity position (i.e. its ability to settle its liabilities as they fall due) and also the ability of the Company to continue to comply with the operational terms of the securitisation transaction that it entered into.

The Directors have assessed the likelihood the Company will be able to meet its debts as they fall due for at least the next 12 months from the date of approval of the financial statements. In concluding that the Company is a going concern, the directors have considered the following factors:

- 1) The limited recourse nature of the transaction, which forms part of the terms and conditions of the Notes, means that the Company is only required to pay out funds to the extent that it has received them from the mortgage loans. As the Notes are secured against the mortgage loans, any eventual shortfall in the repayment of the Notes after the realisation of the underlying mortgage loans, will result in the write down and cancellation of any remaining unpaid Notes.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2024

1. Material Accounting Information (continued)**Going concern (continued)**

- 2) The Notes have a number of circumstances whereby if certain covenant provisions set out in the transaction documents are not met then the Notes may be deemed to be in breach of those covenants. To the best knowledge of the directors, no such trigger events have occurred to the date of this report. The effect of such triggers may result in the alteration of the priority of payments for the Notes by the Company and may result in the early termination of the securitisation transaction.
- 3) The directors are not aware of any concerns about the financial strength of any of the Company's counterparties, Servicers and agents.
- 4) The directors are not aware of any exposures to potential liabilities such as legal proceedings or guarantees that could affect this going concern assessment.
- 5) The UK has been exposed to significant economic uncertainty in recent years with a cost of living crisis. The going concern assessment included consideration of the downside scenarios that may be caused by the remaining uncertainty in the UK economy as a result of certain world conflicts, the imposition of trade tariffs and the potential impact of the cost of living crisis on collectability of the mortgage loans and the Company's subsequent ability to make payments on the Notes.
- 6) Each Note Series has a call option date under which the Company has the right, but not the obligation, to redeem all of the Notes in that Series at or at any Interest Payment Date after the call option date. Should a call option be exercised, the Notes in that Series will be redeemed in full from a sale of the underlying assets of that Note Series and all liabilities extinguished. No notices to exercise the call options have been issued and the directors are not aware of any current plans to exercise the options at the call dates.

The Directors are satisfied that the Company will have adequate resources to continue in business for the foreseeable future being at least 12 months from the approval of these financial statements and that it is appropriate to adopt the going concern basis in preparing the financial statements.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2024

1. Material Accounting Information (continued)**Segmental reporting**

The Company operates in one business sector and generates all income in the United Kingdom. The Chief Operating Decision Makers (CODMs) are the directors, based in the United Kingdom and there are no major customers or sources of revenue over 10% of total revenue. No separate segmental reporting information is presented, therefore.

New standard or amendments in issue but not yet effective

A number of new accounting standards and amendments to accounting standards which have been issued by the IASB are not yet effective and have not been early adopted by the Company. None of these are expected to have a material effect on the Company.

Interest income

The Company's principal source of income is interest income. Interest income is accrued on a time basis, by reference to the principal mortgage loans and at the applicable coupon rate. This relates to the series which value their financial assets and liabilities at fair value.

Interest payable

Interest expense is accrued on a time basis, by reference to the principal outstanding of the Loan Notes and at the applicable coupon rate.

Issuer profit

Under the terms of the transaction documentation, the Company retains an annual issuer profit of £3,000. The excess profit is only payable to the R DCI ("Residual Deferred Consideration Instruments") holder once the principal on the X Note has been paid.

Taxation

The Company operates under the permanent tax regime for securitisation companies (The Taxation of Securitisation Companies Regulation 2006). The directors are satisfied that the Company meets the definition of a 'securitisation company' as defined by both the Finance Act 2005 and subsequent secondary legislation. As a result, the Company is subject to tax on its issuer profit as determined in the securitisation documents.

Cash and cash equivalents

Cash and cash equivalents comprise cash, short-term bank deposits and the reserve accounts that are highly liquid with a maturity of less than 3 months

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2024

1. Material Accounting Information (continued)**Financial instruments**

Financial assets and financial liabilities are recognised in the Company's Statement of financial position when the Company becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

Financial assets

In line with IFRS 9, all financial assets are recognised and derecognised on a trade date where the purchase or sale of a financial asset is under a contract whose terms require delivery of the financial asset within the timeframe established by the market concerned, and are initially measured at fair value, plus transaction costs, except for those financial assets classified as FVTPL where transaction costs directly attributable to the acquisition of financial assets are recognised immediately in profit or loss.

IFRS 9 requires the classification of financial assets to be determined by a contractual cash flows test referred to as solely payment of principal and interest ("SPPI") and the nature of the underlying financial asset and the business model under which it is being held. Financial assets that fail the SPPI test are measured at fair value through the profit and loss net of any expected credit losses.

During the current and previous financial year, there was no change in the business model under which the Company holds financial assets and therefore no reclassifications were made. The Company has entered into IRS specifically to economically hedge the interest rate risk on the fixed rate mortgages within Series 2021-1 and 2021-2. Instruments such as derivatives must be measured at FVTPL. In addition, the Series issuance resulted in the recognition of the DCIs at fair value through profit or loss. Measuring the mortgage loan and notes liabilities within each Series at amortised cost results in an accounting mismatch between the financial instruments measured at FVTPL and the instruments measured at amortised cost within the individual Series. In order to reduce the measurement mismatch, the company has elected to designate the mortgage loans and loan notes at FVTPL.

Derecognition

A financial asset is derecognised when the rights to receive cash flows from the asset have expired.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2024

1. Material Accounting Information (continued)**Financial instruments (continued)****Mortgage Loans**

The mortgage loans are recognised at FVTPL. Because of the economic offset that exists between the mortgage loans, the derivative financial instruments and the loan notes of each Series, the fair value of the mortgage loans is derived from the value of the loan notes, DCIs, derivatives and other assets and liabilities associated with a particular series, to give each series a net asset value equal to the equity in the series. See Note 17 – Fair value hierarchy - for valuation methodology of derivatives and loan notes.

Derivative financial instruments

The Company enters into derivative financial contracts to manage its exposure to interest rate risk. Further details of derivative financial instruments are disclosed in note 12.

Derivatives are initially recognised at fair value at the date a derivative contract is entered into and are subsequently re-measured to their fair value at each Statement of Financial Position date. The resulting gain or loss is recognised in profit or loss immediately.

A derivative with a positive fair value is recognised as a financial asset whereas a derivative with a negative fair value is recognised as a financial liability. A derivative is presented as a non-current asset or a non-current liability if the remaining maturity of the instrument is more than 12 months and it is not expected to be realised or settled within 12 months.

Financial liabilities and equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Other financial liabilities

The Company has elected to measure the Loan Notes at FVTPL. The change in fair value for these liabilities primarily reflect changes in fair value of the assets and is considered asset-specific performance risk. As such, all fair value movements will go through fair value through profit or loss.

Other financial liabilities are initially measured at fair value, net of transaction costs. They are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2024

1. Material Accounting Information (continued)**R DCI liability**

The R DCI liability represents deferred consideration that has been given up in favour of each Series investment member. It is recognised at fair value.

Critical accounting judgements and key sources of estimation uncertainty

The preparation of financial statements in conformity with IFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expense, in particular the estimation of future cash flows on the portfolio of mortgage loans in order to determine the amortised cost balance of these investments.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgements on carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates used in the financial statements.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both the current and future periods.

Critical accounting judgements

The key areas where critical accounting judgements have been made in the financial statements are:

Fair Value of mortgage loans

The fair value of the mortgage loans is derived from the fair value of all financial instruments to give the Series a nil Net Asset Value. The fair value of the Loan Notes is derived from vendor prices and the fair value of the interest rate swaps is based on discounted future cash flows. The fair value of all other current assets and liabilities approximates their carrying amount.

Fair value of the loan notes

The fair value of the loan notes is derived from third party vendor prices.

Fair value of DCI

The fair value of the DCIs is based on vendor quotes.

Key sources of estimation uncertainty

The key sources of estimation uncertainty are the valuation of the loan notes and DCI which are all based on third party vendor prices. Please see Note 16 "Fair value hierarchy section".

2. Directors' remuneration and employees

The Company has no employees (2023: none). No director received any remuneration during the year (2023: none). The directors are all provided by Law Debenture Corporate Services Limited who received a corporate services fee for the provision of certain services (see note 17).

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2024

3. Interest and similar income

	2024	2023
	£000	£000
Other income	2	2
Bank interest at effective interest rates	1,913	1,218
	1,915	1,220
Early Repayment Charge (ERC) income	214	174
Interest income on mortgage loans	25,641	20,322
Deferred consideration payable	(8,215)	(10,499)
	17,640	9,997
	19,555	11,217

4. Interest expense and similar charges

	2024	2023
	£000	£000
Interest expense on Loan Notes	29,196	22,928
	29,196	22,928

5. Auditor's remuneration

Auditor's remuneration has been accounted for within "Other operating expenses" within the Statement Of Comprehensive Income. The analysis of the auditor's fees for the year is described below.

There were no fees or expenses paid in respect of other assurance, or non-audit services provided by the statutory auditor for the year-ended 31 December 2024 (2023:Nil).

	2024	2023
	£000	£000
Audit fees payable	109	111
	109	111

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2024

6. Net gain from derivative financial instruments held at fair value

	2024	2023
	£000	£000
Realised gain on derivatives	14,024	12,574
Change in unrealised loss on derivatives	(8,451)	(11,883)
	5,573	691

7. Taxation

	2024	2023
	£000	£000
Current tax:		
UK corporation tax on taxable profit for the year	1	-

Factors affecting the tax charge for the year:

The tax assessed for the year is the same as the standard rate of corporation tax in the UK of 25% (2023: 19%). A reconciliation of the charge that would result from applying the standard UK corporation tax rate to the profit before tax to the actual tax charge for the year is given below:

	2024	2023
	£000	£000
Profit before tax	2	2
Current tax charge at 25% (2023: 19%)	1	-
Current tax charge for the year	1	-

For UK corporation tax purposes, the Company has been considered as a securitisation company under the 'Taxation of Securitisation Companies Regulations'. Therefore, the Company is not required to pay corporation tax on its accounting profit. Instead, the Company is required to pay tax on its issuer profit as specified in the documentation governing the securitisation transaction into which the Company has entered.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2024

8. Mortgage loans

	2024	2024	2024	2024	2023	2023	2023
	£000	£000	£000	£000	£000	£000	£000
	Series	Series	Series	Total	Series	Series	Total
	2021-1	2021-2	2024-1		2021-1	2021-2	
Balance at 1 January	213,331	176,527	-	389,858	236,041	218,806	454,847
Mortgage redeemed	(20,934)	(17,497)	(64,219)	(102,650)	(33,992)	(49,707)	(83,699)
Mortgage acquired	-	-	330,115	330,115	-	-	-
Movement in fair value	10,798	4,327	768	15,893	11,282	7,428	18,710
Balance at 31 December	203,195	163,357	266,664	633,216	213,331	176,527	389,858

The Company has charged by way of security to the Loan Notes Trustee, its rights to receive principal and interest on the mortgage loans. The mortgage loan portfolio contains both fixed and floating rate loans.

9. Trade and other receivables

	2024	2023
	£000	£000
Interest receivable	3,534	117
Other receivables	164	54

	11,985	20,436	296,693	319,630

The interest rate swaps were issued to economically hedge against the difference in interest rates between the fixed and floating rate mortgage loans and the floating rate Loan Notes. The Company is the swap contract fixed rate payer. The terms of the swap contracts are detailed in the table below:

	2021-1	2021-2	2024-1
Fixed interest rate	0.37%	1.25%	n/a
Maturity date	15 May 2026	15 February 2027	n/a

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2024

13. Long term borrowings

For all new series established from 1 January 2021, the Company irrevocably elected to designate all financial assets and liabilities at FVTPL.

The Company has charged by way of security to the Note Trustee its rights to receive principal and interest on the mortgage loans.

All Series Note issuances are denominated in GBP pounds sterling.

The terms of the Loan Notes for each Series are listed below.

Class of Notes	Outstanding principal amount £000	Issue Price	Interest	Annual margin prior to step-up	Step-up date	Annual margin after step-up	Maturity
<u>Series 2021-1</u>							
A	155,270	100%	SONIA	0.75%	May 2026	1.125%	May 2051
B	15,458	100%	SONIA	1.20%	May 2026	1.800%	May 2051

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2024

14. Reconciliation of opening and closing balance of financial liabilities arising from financing activities

	2024	2023
	£000	£000
Loan Notes at amortised cost		
Opening balance at 1 January	-	55,921
Notes redeemed	-	(55,921)
Closing balance at 31 December	-	-
	2024	2023
	£000	£000
Loan Notes at fair value		
Opening balance at 1 January	387,602	489,196
Notes issued	367,249	-
Notes redeemed	(101,571)	(107,882)
Movement in fair value	4,542	6,288
Closing balance at 31 December	657,822	387,602
	2024	2023
	£000	£000
R DCI liability		
Opening balance	6,823	6,705
Fair value movement on R DCI	4,548	118
Closing balance	11,371	6,823

The fair value movement on R DCI is the movement in fair value of the expected residual payments in future. It therefore has no predetermined final maturity date and it doesn't bear interest. It ranks junior to all other Notes and secured creditors.

15. Share capital

	2024	2023
	£000	£000
Authorised		
50,000 £1 shares	50	50
Allotted and called up

50,000 £1 shares £0.75 unpaid	37	37
	50	50

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2024

16. Financial Instruments

The Company's financial instruments are summarised in the table below including their classification in accordance with IFRS 9. It is and has been throughout the year the Company's policy that no trading in financial instruments shall be undertaken.

31 December 2024

	At amortised cost £000	At fair value through profit and loss £000
Financial assets		
Mortgage loans	-	633,216
Derivative financial assets	-	11,985
Trade and other receivables	3,736	-
Cash and cash equivalents	59,809	-
	63,545	645,201
Financial liabilities		
Trade and other payables	39,418	-
Loan Notes	-	657,822
R DCI liability	-	11,371
	39,418	669,193

31 December 2023

	At amortised cost £000	At fair value through profit and loss £000
Financial assets		
Mortgage loans	-	389,858
Derivative financial assets	-	20,436
Trade and other receivables	209	-
Cash and cash equivalents	13,230	-
	13,439	410,294
Financial liabilities		
Trade and other payables	29,174	-
Loan Notes	-	387,602
R DCI liability	-	6,823
Derivative financial liabilities	-	-
	29,174	394,425

The main risks arising from the Company's financial instruments are credit risk, market risk, liquidity risk and operational risk.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2024

16. Financial Instruments (continued)**Credit risk**

Credit risk is the risk that the borrowers of the underlying mortgage loans will not be able to meet their obligations as they fall due.

For each Series, the underlying mortgage loans are required to adhere to specific lending criteria and late payments are subject to regular reviews by Fleet, Charter and TML, collectively the Originators and Servicers of the mortgages, to ensure credit risks are identified on a timely basis and losses are minimised. The Company has appointed Citibank as the Cash Manager to produce quarterly portfolio performance reports for each Series.

The table below provides information on the mortgage loans by payment due status as at the last Interest Payment Date on November 2024. These figures have not changed materially as at 31 December 2024.

	2024	2024	2023	2023
	Number of	£000	Number of	£000
	mortgages		mortgages	
Mortgage loans neither past due nor impaired	3,192	611,435	1,634	178,555
Mortgage loan in arrears	42	10,702	1	103
Mortgage loans in default	76	17,855	1	449

The value shown above is that of the mortgage loans at cost.

At the reporting date, 96.44% (2023: 99.88%) of the underlying mortgages were neither past due nor impaired.

An event of default is defined as when an underlying mortgage borrower goes into payment arrears in excess of 90 days or it is determined that the underlying mortgage can no longer be repaid. The primary evidence of an event of default is the borrower missing payments for more than 90 days.

There are 76 underlying mortgages in default during the year (2023: 1), and 42 underlying mortgage is in arrears exceeding 30 days (2023: 1) and considered to be underperforming but not in default. The increase on mortgages in default and in arrears year on year is mainly from the new mortgages acquired during the year, which was financed by Series 2024-1. The Servicers have processes in place to recover all outstanding amounts.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2024

16. Financial Instruments (continued)**Credit risk (continued)***Key lending criteria and scoring characteristics*

Typical Lending Criteria	Up to 80% Loan-to-Value Rental Cover down to 120% Lending in England and Wales properties
Customer Profile	Private investors Professional & Semi-professional landlords
Exclusion	No Credit Bureau Data Credit Bureau Score <200 Northern Ireland & Scotland properties

The current Loan-to Value ("LTV") for all the underlying mortgages ranges from 0.09% to 92.66% (2023: 8.35% to 82.08%). For the tables below, an indexed valuation (using regional HPI data to 31 December 2024) of the underlying collateral property has been used to provide a more representative valuation as at the Statement of financial position date and to account for average regional price movements since the individual loan was originated.

LTV

	2024	2024	2024	2023	2023	2023
	Percentage	Number	Value £000	Percentage	Number	Value £000
>= 90%	0%	3	784	0%	-	-
80% - <90%	3%	95	14,972	2%	25	5,126
70% - <80%	48%	1,465	375,524	73%	1,189	355,124
60% - <70%	15%	482	119,183	15%	239	76,633
<60%	33%	1,035	183,828	10%	168	38,890
Total		<u>3,080</u>	<u>694,291</u>		<u>1,621</u>	<u>475,773</u>

If the current collateral value for the buy-to-let mortgages decreased by 17% at the least, based on the BoE stress test, this would cause 17 mortgages with a total value of £3,513,000 to have an LTV above 100%. The Company would not be expected to suffer any credit loss because the fall in collateral values could be absorbed by the company's credit enhancements of £9,406,000 (2023: £11,190,000).

Credit enhancements

	2024	2024	2024	2024	2023
	£000	£000	£000	£000	£000
	Series	Series	Series	Total	Total
	2021-1	2021-2	2024-1		
S Notes	1,216	2,549	-	3,765	5,549
Z Notes (reserve funds)	3,092	2,549	-	5,641	5,641
	<u>4,308</u>	<u>5,098</u>	<u>-</u>	<u>9,406</u>	<u>11,190</u>

The value shown above is that of the principal.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2024

16. Financial Instruments (continued)**Credit risk (continued)**

The Company also has credit risk exposure to the swap counterparty, BNP Baribas (rated A+ by S&P) and the cash manager Citi bank (rated A+ by S&P). This credit risk is managed by engaging with counterparties that have very good credit ratings, therefore lower risk of default. See Note 12 for the value of this exposure at year end.

Operational risk

Operational risk is the risk of loss arising from inadequate or failed internal processes, people and systems within one or more of the Company's third-party providers or from external events. The Company appointed Fleet, Charter and TML as its mortgage Servicers and Citibank as its cash manager and bank account provider. Mortgage Servicer operational risk is mitigated by having a back-up Servicer in place. The cash manager has adequate back-up facilities in case of operational failure and where the Company finds the need to terminate the services of the cash manager, a grace period is given to find a suitable replacement under the terms of the transaction documents.

Market risk

Market risk is the risk that changes in market prices will affect the Company's income or the value of the financial instruments. Market risk comprises foreign currency risk, interest rate risk and price risk.

Foreign currency risk

All transactions and financial instruments are denominated in the Company's functional currency (pound sterling) and consequently no currency exposure arises.

Interest rate risk

Interest rate risk exists where assets and liabilities have interest rates set under different bases or which reset at different times. The Company has issued various Series of floating rate Notes and the underlying mortgage loans are both fixed and floating rate loans. The Company hedges its interest rate risk on the underlying fixed rate mortgage loans within Series 2021-1 and 2021-2 by entering into swap agreements with suitably rated counterparties. The Company has not entered into an IRS on Series 2024-1 as the loans were either floating rates or fixed rates which are due to reset to floating rates in few months from origination.

The interest rate risk profile of the Company's financial assets and liabilities is shown below:

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2024

16. Financial Instruments (continued)**Interest rate risk (continued)**

The interest rate risk profile of the Company's financial assets and liabilities is shown below:

<u>31 December 2024</u>	Total Non- interest bearing £000	Total Variable £000	Total fixed £000	Weighted average interest rate %
Financial assets				
Mortgage loans	-	130,964	502,252	5.05
Derivative financial assets	-	11,985	-	4.98
Trade and other receivables	3,736	-	-	-
Cash and cash equivalents	-	59,809	-	5.24
	3,736	202,758	502,252	
Financial liabilities				
Trade and other payables	39,418	-	-	-
Loan Notes	-	657,822	-	5.59
R DCI liability	-	11,371	-	1.04
	39,418	669,193	-	

The fixed rate mortgages were taken for a maximum of 5 years from origination. They will revert to variable rate over time, at which point the interest rate risk on the assets and liabilities will be matched. In the meantime, the risk is managed by having interest rate swap contacts in place. None of the fixed rate mortgages were reverted to variable rate during the year.

During the year ended 31 December 2024, if the SONIA rate had been 1% higher, with all other variables held constant, the effect on the Company's interest income on the mortgage loans would amount to an increase of approximately £4,351,000 (2023: £4,144,000) and the effect on the Company's interest expense on the loan notes and R DCIs would also amount to an increase of approximately £4,907,000 (2023: £4,306,000). A 1% decrease in the SONIA rate would result in a corresponding fall in interest income and expense. The net overall impact on the profit of the Company would be £556,000 (2023: £162,000).

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2024

16. Financial Instruments (continued)***Interest rate risk (continued)***

Financial liabilities				
Trade and other payables	29,174	-	-	-
Loan Notes	-	387,602	-	4.92
R DCI liability	-	6,823	-	1.25
	<u>29,174</u>	<u>394,425</u>	<u>-</u>	

Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its seller, or factors affecting similar financial instruments traded in the market. The Company is exposed to price risk because of changes in the market values of the Loan Notes and derivatives. The Loan Notes issued by the Company are Limited recourse in nature and the Company is only expected to pay its Noteholders to the extent of the income it receives. The Company therefore has no material price risk because it can only pay out what it receives.

The fair value of the mortgages loans is the net fair value of all financial instruments which gives the Company a net asset value of nil. As a result, any change in fair value of the Loan Notes or derivatives will have an equal but opposite effect on the fair value of the mortgage loans, resulting in no impact on the Company.

The Company uses the hierarchy below for determining and disclosing the fair value of financial instruments by valuation technique.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2024

16. Financial Instruments (continued)**Price risk (continued)****Fair value hierarchy****Quoted market prices - Level 1**

Financial instruments, the valuations of which are determined by reference to unadjusted quoted prices for identical assets or liabilities in active markets where the quoted price is readily available, and the price represents actual and regularly occurring market transactions on an arm's length basis. An active market is one in which transactions occur with sufficient volume and frequency to provide pricing information on an ongoing basis.

Valuation technique using observable inputs - Level 2

Financial instruments that have been valued using inputs other than quoted prices as described for level 1 but which are observable for the asset or liability, either directly or indirectly. The interest rate swaps are valued using broker prices. The broker prices are calculated using discounted cash flow models.

Valuation technique using significant unobservable inputs - Level 3

Financial instruments, the valuation of which incorporates significant inputs for the asset or liability that are not based on observable market data (unobservable inputs). Unobservable inputs are those not readily available in an active market due to market illiquidity or complexity of the product. These inputs are generally determined based on observable inputs of a similar nature, historic observations on the level of the input or analytical techniques. The loan notes and DCI are valued using prices provided by third party vendors which are based on discounted cash flow models that are calculated using unobservable inputs based on information relating to the mortgage loans. The fair value of the mortgage loans is derived from the fair value of all their financial instruments to give the Company a net asset value equal to the equity.

Financial instruments recognised at fair value in the statement of financial position:

31 December 2024	Level 1	Level 2	Level 3	Total
	£000	£000	£000	£000

Financial instruments not recognised at fair value in the statement of financial position

There are no financial instruments that are not recognised at fair value.

The table below shows the movement in level 3 financial instruments during the year:

2024

	Opening balance	Additions during the year	Disposals during the year	Unrealised fair value gain through profit and loss	Transfer from level 2	Closing balance
	£000	£000	£000	£000	£000	£000
Mortgage loans	389,858	330,115	(102,650)	15,893	-	633,216
Loan Notes	387,602	367,249	(101,571)	4,542	-	657,822
R DCI	6,823	-	-	4,548	-	11,371

2023

	Opening balance	Additions during the year	Disposals during the year	Unrealised fair value gain through profit and loss	Transfer from level 2	Closing balance
	£000	£000	£000	£000	£000	£000
Mortgage loans	454,847	-	(83,699)	18,710	-	389,858
Loan Notes	545,117	-	(163,803)	6,288	-	387,602
R DCI	6,705	-	-	118	-	6,823

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2024

16. Financial Instruments (continued)***Price risk (continued)***

Management uses prices provided by a third party vendor to value the loan notes and R DCIs. If the broker quote increased by 1%, that would result in an increase in the value of the loan notes of £6,578,000 (2023: £3,876,000) and the R DCIs of £114,000 (2023: £68,000), this would also result in an increase in the value of the mortgages of £6,692,000 (2023: £3,944,000). A decrease in the broker quotes would result in a corresponding fall in the value of the loan notes, R DCIs and mortgage loans.

Liquidity risk

The Company maintains Series specific Main Reserve Funds to cover revenue and principal shortfalls. There are also balance guarantee swaps in place to mitigate against prepayment risk which could affect liquidity if not mitigated.

The reserves are funded from proceeds of the class Z Notes of each Series. In the event that the Series reserves fall below their target amount, they will be topped up from the Series revenue receipts after the Class C, D or E interest according to the Series revenue priority of payments. The Series reserves will remain in place until such time as the class C, D or E Notes have been redeemed in full, when they will be released as a principal receipt. The Company also maintains Series Liquidity Reserve Funds. These reserves will be built up through principal receipts as the most senior items in the principal priority of payments. Once fully funded to the various levels stated in each Series prospectus, the reserves will be topped up from collections income to the extent necessary to maintain their balance at the target amounts. They are available to cover senior fees and interest shortfalls on the class A and B Notes for all Series. The target amount will fall to zero once the class B Notes have been paid in full, with any balance released and paid in accordance with the Series principal priority of payments. In the event of a shortfall, the residual Note holders will suffer the loss. Please see Note 13 for details of the priority of payments on the various classes of notes.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2024

16. Financial Instruments (continued)

The table below shows expected cash flows of financial assets and liabilities of the Company at the statement of the financial position date based on call option date of the notes. This presentation is considered by the Company to appropriately reflect the liquidity risk arising from those financial liabilities, presented in a way that is consistent with how the liquidity risk on these financial statements is managed by the Company.

	(29,174)	-	-	(394,425)	(423,599)

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2024

16. Financial Instruments (continued)**Liquidity risk (continued)**

The table below shows expected cash flows of financial assets and liabilities of the Company at the statement of the financial position date based on the contractual maturity dates. The fair value of the mortgage loans, loan notes and R DCI liability are representative of the undiscounted expected future cash flows.

31 December 2024

	Less than 1 year £000	1-2 Years £000	2-5 Years £000	More than 5 years £000	Total £000
Financial assets					
Mortgage loans	1,471	5,876	17,489	608,380	633,216
Derivative financial assets	-	-	11,985	-	11,985
Trade and other receivables	3,736	-	-	-	3,736
Cash and cash equivalents	59,809	-	-	-	59,809
	65,016	5,876	29,474	608,380	708,746
Financial liabilities					
Trade and other payables	(39,418)	-	-	-	(39,418)
Loan Notes	-	-	-	(657,822)	(657,822)
R DCI liability	-	-	-	(11,371)	(11,371)
	(39,418)	-	-	(669,193)	(708,611)

31 December 2023

	Less than 1 year £000	1-2 Years £000	2-5 Years £000	More than 5 years £000	Total £000
Financial assets					
Mortgage loans	-	-	4,234	385,624	389,858
Derivative financial assets	-	-	20,436	-	20,436
Trade and other receivables	209	-	-	-	209
Cash and cash equivalents	13,230	-	-	-	13,230
	13,439	-	24,670	385,624	423,733
Financial liabilities					
Trade and other payables	(29,174)	-	-	-	(29,174)
Loan Notes	-	-	-	(387,602)	(387,602)
R DCI liability	-	-	-	(6,823)	(6,823)
	(29,174)	-	-	(394,425)	(423,599)

The notes are subject to mandatory redemption on their respective final maturity dates. If borrower repays any amount due on the loans earlier than the contractual loan terms, any such amount would need to be paid to noteholders.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2024

16. Financial Instruments (continued)**Fair values**

The fair values of the Company's financial assets and liabilities are shown below:

	Carrying value 2024 £000	Fair value 2024 £000	Carrying value 2023 £000	Fair value 2023 £000
Financial assets				
Mortgage loans	633,216	633,216	389,858	389,858
Derivative financial assets	11,985	11,985	20,436	20,436
Trade and other receivables	3,736	3,736	209	209
Cash and cash equivalents	59,809	59,809	13,230	13,230
	708,746	708,746	423,733	423,733
Financial liabilities				
Trade and other payables	39,418	39,418	29,174	29,174
Loan Notes at fair value	657,822	657,822	387,602	387,602
R DCI liability at FVTPL	11,371	11,371	6,823	6,823
	708,611	708,611	423,599	423,599

The fair value of the mortgage loans is derived from the fair value of all their financial instruments to give the Company a net asset value equal to the equity. The fair value of the Loan Notes is based on vendor prices whilst the interest rate swap and the R DCIs are valued on the basis of discounted future cash flows.

17. Related party transactions

Law Debenture Corporate Services Limited ("Law Deb") charges a management fee for the provision of a range of services including provision of all of the directors.

London Wall Mortgage Capital Holdings Limited ("Holdings") is the immediate parent company and sole share shareholder.

The LLP was the holder of DCI for Series 2018-1 which was terminated in 2023. Accordingly, the LLP ceased as a related party in 2023.

The related party transactions between the Company and its related parties are summarised as follows:

		2024 £000	2023 £000
Statement of comprehensive income	Related party		
Corporate service fee	Law Deb	(83)	(49)
Interest income on deemed loans	LLP	-	1,640
Deferred consideration expense	LLP	-	(1,005)

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2024

17. Related party transactions (continued)

		2024	2023
	Related party	£000	£000
Statement of financial position			
Share capital receivable	Holdings	37	37
Accrued corporate service fee	Law Deb	(23)	(24)

18. Ultimate parent undertaking

The Company's immediate parent company is London Wall Mortgage Capital Holdings Limited ("Holdings"), a Company registered in England and Wales. The entire share capital of Holdings is held on trust for discretionary charitable purposes by The Law Debenture Intermediary Corporation plc. The investment members of the different Series can exercise call options and can wind up the individual series but they cannot wind up the company. Furthermore, the trustees are not entitled to any economic benefits from the Company and the beneficiaries do not have any decision-making power, and they do not control the Company. The Company therefore, has no ultimate controlling party.

19. Commitments and contingencies

As at the year-end date, the Company neither had any commitments nor contingencies (2023: None).

20. Post balance sheet events

Since the date of the Statement of Financial Position, repayments for the mortgage assets have continued in line with expectations. There have been no other significant events affecting the Company since the year end that would require adjustment or disclosure in the financial statements.
