

StART

WELCOME TO StART 2024
OUR NEW HOME, KING'S CROSS TOWN HALL
MONDAY 7th - SUNDAY 13th OCTOBER 2024

StART has relocated to an iconic new space in the world-renowned creative and technology hub, King's Cross St Pancras the vibrant district for innovative talent, now known simply as KX. St Pancras Square is the energetic home to the headquarters of industry-leading global giants, such as Google, LVMH and Facebook, and has firmly established itself as the most exciting location for progressive businesses in London.

Situated directly across from St Pancras and King's Cross stations, the soon-to-be unveiled, fully renovated King's Cross Town Hall builds upon the already formidable reputation of this fulcrum of creative excellence. This historic building has been updated and future-proofed with an elegance that elevates its surroundings, and it is set to become both a unique global destination, and one of the most sought after venues for culture and events in the capital.

The move heralds a bold new era of expansion for StART and offers an exciting opportunity for galleries to be showcased in this atmospheric and versatile new Central London location.

With a keen focus on some of the most exciting emerging global markets, StART will bring together cutting edge artists and galleries from across the world, introducing the cultural leaders shaping a new dawn in contemporary art. A newly established Select Committee will carefully consider all artists and galleries applying to participate.

StART Art Fair runs from 7-13 October 2024.
