15 AMAZING BRICK MODELS

BRICKLIVE BRICKOSAURS

BRICKOSAURS is a unique collection of dinosaur brick models that provide an awe-inspiring spectacle for visitors. With amazing models including a large Velociraptor, Pteranodon and Parasaurolophus this touring show contains some of the most extraordinary toy brick builds ever created. Visitors can experience firsthand what it would have been like to come face-to-face with these incredible prehistoric reptiles.

Fans will love the chance to get an insight into how these incredible models were built and gain inspiration for their own brick building projects. Facts and figures about the dinosaurs and their brick models are displayed on ID cards, making this an educational and entertaining trail. As visitors tour amongst the wonderful variety of dinosaurs, they will have the opportunity to take photos in the range of photo zones including our Megalosaur head and head-in-hole mosaic.

BRICKOSAURS has visited Marwell Zoo in the UK in 2019 and the Odysseum in Cologne in 2020 before heading off to Antwerp Zoo in Spring 2020. There are 3 versions of BRICKOSAURS with this set of 15 models being perfect for shopping malls, town centres and smaller visitor attractions.
