BRICKOSAURS Evolution is the latest collection of dinosaur brick models that provide an awe-inspiring spectacle for visitors with amazing models of all sizes. This collection takes the Brickosaurs tour to a whole new level.

The tour includes a spectacular Styracosaurus, huge Spinosaurus and a colourful horned herbivore, Ceratosaurus to name but a few. In addition there are plenty of great photo opportunities and interactives.

This touring show contains some of the most extraordinary toy brick builds ever created. Visitors can experience firsthand what it would have been like to come face-to-face with these incredible prehistoric reptiles while also discovering some of the lesser known creatures.

Fans will love the chance to get an insight into how these incredible models were built and gain inspiration for their own brick building projects. Facts and figures about the dinosaurs and their brick models are displayed on ID cards, making this an educational and entertaining trail.

This Evolution of BRICKOSAURS provides an appealing spectacle that is suited for large zoos and visitor attractions.
