10. Distribution conditions

AFS has distribution conditions in place designed to help ensure this product is only sold to consumers in the Target Class.

These conditions include such measures as:

AFS (direct) on the proprietary website

- Knockout questions on application to determine whether the consumer is meeting the eligibility requirements for the product
- Website content is reviewed to ensure appropriate messaging to the target market

For all other distribution

- Accreditation and onboarding of finance brokers and dealerships to confirm they are qualified to distribute the products
- Provision of AFS' eligibility criteria to accredited brokers, dealerships and referral partners to ensure the consumer loan products are being recommended consumers within the Target Class.
- Checklists are provided to distributors which outlines information AFS requires from the consumer (via the distributor) to verify information as well as perform a credit assessment
- AFS' Business Development Manager (BDM) is a point of contact for all approved brokers and referral partners to clarify any questions of eligibility

If AFS becomes aware that the distribution conditions outlined in this TMD are no longer adequate such that consumers outside of the Target Class are able to gain access to the product, that distribution channel shall be immediately reviewed.

11. Adequacy of distribution conditions and restrictions

- Implementation of suitability and eligibility questions through the application process allows AFS' proprietary platform to identify those applicants who do not meet the criteria for the products prior to any loan offer being made to a consumer.
- Provision of the reference material such as checklists to accredited brokers and dealerships means the consumer's required information is received by AFS to enable assessment of suitability and eligibility prior to a product being offered. Agreements with referral partners are made taking into consideration their access to the Target Class.
- Finance brokers and dealerships that are accredited with AFS typically share and have access to the Target Class.

AFS has determined that the following events and circumstances will make the Products no longer appropriate

to the Target Class:

- where ineligible consumer or consumers out of the Target Class are consistently able to gain access to the Products.
