## 1. Actions arising from previous meetings

Meeting date	Agreed action	By whom	By when	Status
29 January Infrastructure officials meeting	Provide an overview and outline of our planned Asset Management work programme	Andy Hagan	20 Feb	Pending

## 2. Key issues and updates

### 2.1. National Infrastructure Plan (NIP)

s18(d), s9(2)(f)(iv), s9(2)(g)(i)

#### **National Infrastructure Pipeline (Pipeline)**

The December quarter Pipeline update was published on 20 December 2024. The update included the biggest ever growth in Pipeline contributors for a single quarter, with 14 new organisations providing data for the first time (including 11 District Councils). Fifty-nine local government contributors now have representation in the Pipeline, up 51% since June 2024. We continue to work on improved quality and onboarding remaining councils.

We have worked with our contributors to improve the visibility of projects in early planning stages – these are projects that have lower-certainty and are yet to have funding committed. This work

contributes to a substantial lift in the value of unfunded initiatives (including Waka Kotahi projects). Providing transparency and improving the completeness of these early stage initiatives in the Pipeline strengthens our evidence base for investment planning and intentions needed to support the National Infrastructure Plan. It also provides the construction market and other infrastructure providers with an improved forward view of potential demand to support investment decision-making and sequencing.

We are currently preparing our Pipeline snapshot with summary insights from the December quarter and anticipate providing an advance copy to your office the week of 17 February.

## 2.2. Meeting with the Green Party MPs on 10 February

Geoff Cooper, Chief Executive, is meeting with Julie-Anne Genter, Infrastructure Spokesperson, and other Green Party MPs to provide an update on the National Infrastructure Plan. This is the second meeting with the Green Party, following on from your letter of 28 August to political parties on moving towards greater bipartisanship in New Zealand’s infrastructure system.

*Geoff Cooper, Chief Executive*

## 2.3. Public Works Act Amendments to support critical infrastructure

s9(2)(f)(iv)

*Barbara Tebbs, General Manager, Policy*

## Appendix A: List of upcoming reports and publications

We investigate a range of topics to help build the capability and performance of the infrastructure system and to support discussions with the sector. We publish reports that we commission or author ourselves – including research insights, ‘deep dive’ inquiries, project reviews, economic analysis, and policy insights. The list below sets out our current programme of reports. We provide the Minister’s office with a heads-up before publishing.

Topic / Title	Type of report	Intended publication date	What this report or publication covers
Insurance of infrastructure against natural disasters	Research Insight	5 February	This Research Insights report covers the role of insurance in helping to manage natural hazard risks facing infrastructure. The report does not make policy recommendations; however we note that the findings are relevant for several current policy initiatives in the areas of infrastructure risk management and climate adaptation. [TW-2024-514 refers.]
Pipeline snapshot (fourth quarter 2024)	Pipeline report	Week of 17 February	Analysis and high-level insights summarising the Pipeline update and change between quarters. We will be preparing a media release for your office on this snapshot.
Delivering better value and better outcomes: changing practices in infrastructure delivery	Delivery guidance	Week of 24 February	Based on best international practice, this report points to ‘lowest price tender’ as generally giving poor long-term outcomes where major projects are concerned. And highlights some delivery principles that will help government become a better infrastructure client when conceiving, designing and building major infrastructure projects.
Towards better contracts	Delivery guidance	Week of 24 February	Contracts express and drive the relationship between client and delivery partner/s, and as such are a cornerstone of good projects. This report looks at New Zealand government contracting practice and the relationships this drives/supports from the perspective of a number of different agents: client, engineer, lawyer, contractor, etc – highlighting what they’ve said in structured interviews about this.
When does Growth Pay for Growth?	Research report	Week of 10 March	This research report will share findings on whether infrastructure-enabled economic growth is sufficient to generate revenues to cover the costs of infrastructure construction.
Feedback on Testing our thinking	Report	Week of 31 March	This report will provide an overview of feedback received on our discussion document <i>Testing our thinking: Developing an enduring National Infrastructure Plan</i> . We will share what we’ve learnt and highlight ways the feedback will inform the Plan.

Topic / Title	Type of report	Intended publication date	What this report or publication covers
Nation Building: 150 Years of Infrastructure Networks	Research report	April	This report will provide a new long-term database on infrastructure construction prices, infrastructure investment, and size of infrastructure networks, broken down by infrastructure sector. The report will be an important background paper for the Infrastructure Needs Analysis work that is being done as part of the development of the National Infrastructure Plan.
