

05 October 2026

Dear Customer,

## Update on final stages of installation of electricity cables in Surbiton

UK Power Networks runs and operates the electricity network delivering power to your area. In partnership with our contractor, JSM, we are currently working on the final stages of our project to install new underground electricity cables. This project is part of our continued investment in the network to ensure reliable power supplies for local homes and businesses.

This stage of our work is where we open an excavation to enable us to pull the new cables into the previously installed ducts and join them together at set intervals. This phase of the project requires large excavations known as 'joint bays' and you will see large timber structures around the openings.

Please note our team will work across multiple locations during this phase, so there may not be a full-time presence at each site. **Please see the table below for the latest permit details.**

For live updates or more information, please visit our webpage by scanning the QR code at the back of the letter or via [www.ukpowernetworks.co.uk/chessington-to-kingston](http://www.ukpowernetworks.co.uk/chessington-to-kingston).

Access will be maintained, and the site team will work with residents and businesses to understand their access and delivery needs and plan the daily works with the least disruption possible. Our working hours are from 8am to 5pm Monday to Saturday and should have no impact on your electricity supply.

We have worked closely with the local authority in planning these works and apologise for any inconvenience caused. If you have any questions, please contact our customer care team on **0800 028 4587** Monday to Friday 08:30-17:00, or [care@ukpowernetworks.co.uk](mailto:care@ukpowernetworks.co.uk).

Yours sincerely,

*R.S.R.MILES*
