JOB POSTING:

UK Part 145 Maintenance Manager

– Based at Humberside Airport, UK

UNI-FLY is seeking a professional and motivated Part 145 Maintenance Manager / Part 145 Post Holder to join our maintenance organisation.

Position overview

As the Part-145 Maintenance Manager, you will head the engineering and workshop operations to ensure the safe, efficient, and fully compliant delivery of base and line maintenance. In this high-impact leadership position, you will serve as the primary regulatory point of contact and actively shape the safety culture of the facility.

Key responsibilities

- **Regulatory Post Holder:** Act as the nominated UK CAA Form 4 Post Holder for the maintenance organisation, taking full accountability for keeping all operations aligned with Part-145 regulations, the Maintenance Organisation Exposition (MOE), and approved data.
- **Operational Leadership:** Manage daily workshop and hangar activities, including production planning, resource deployment, capacity scheduling, and subcontracted support to meet customer turnaround targets.
- **Safety & Compliance Oversight:** Support internal and external audits, spearhead corrective action closures, and maintain positive relationships with the UK CAA and other national aviation authorities.
- **Commercial & Customer Relations:** Serve as the core technical contact for corporate clients, managing operational expectations, driving department Key Performance Indicators (KPIs), and overseeing the departmental budget.
- **Culture & Team Management:** Lead, mentor, and build team capability while strictly enforcing human factors principles and a proactive, no-blame “Just Culture” across the engineering floor.

Qualifications

- Must be fully eligible to hold a UK CAA Form 4 Post Holder authorisation.
- Managerial background within an approved aviation Part-145 maintenance or MRO environment.
- Comprehensive, up-to-date knowledge of UK CAA regulations.
- Extensive experience in aircraft line/base maintenance or component overhaul under Part-145 ratings.
- Comprehensive knowledge of SMS (Safety Management Systems) and occurrence reporting.
- Strong safety mindset, attention to detail, and commitment to quality.

THE RIGHT APPROACH.

SINCE 1970

What we offer

– Competitive salary and benefits package.
– Opportunities for professional development
– A professional, supportive, and safety-driven working environment.
– Exposure to active operational aircraft, planned maintenance bases and varied maintenance activities.
– A permanent base at Humberside Airport, Humberside, United Kingdom.

About UNI-FLY

UNI-FLY is a reputable and innovative aviation company operating under UK CAA and EASA approvals. We are committed to safety, quality, and operational excellence, delivering maintenance and operational support services to our customers in the UK and internationally.

How to apply

If you would like to apply for this position, please send your CV and cover letter to: **sam@uni-fly.dk**. Applications are reviewed on an ongoing basis, and relevant candidates will be invited for interviews as applications are received.

Take the next step with UNI-FLY and become part of our maintenance team.

To be considered for this role, you must be able to demonstrate your right to work in the UK at the point of offer. We are unfortunately unable to provide visa sponsorship for this position.

At UNI-FLY, we bring together skilled professionals across operations, maintenance, and support functions. Join a team where experience, safety, and collaboration are at the core of everything we do.
