JOB POSTING:

UK CAA B1.3 Aircraft Engineer

– Based at Humberside Airport, UK

UNI-FLY is seeking a skilled and motivated Aircraft Technician holding a UK CAA Part-66 B1.3 Aircraft Maintenance License to join our maintenance organisation.

Position overview

As a Rotary Wing Aircraft Technician at UNI-FLY, you will support the maintenance and continued airworthiness of our rotary-wing aircraft in accordance with UK CAA and EASA Part-145 requirements. To some extent, the position will demand travel for AOG (Aircraft on Ground) or ad hoc operational support. Your primary place of work will be at Humberside Airport, Humberside in the UK.

This position is well-suited to a practical, safety-focused technician who enjoys a varied work environment and supports both planned maintenance and operational aircraft.

Key responsibilities

– Carry out scheduled and unscheduled maintenance tasks on rotor-wing aircraft.
– Support AOG and AD-HOC maintenance activities at various locations, including short-notice tasks when operationally required.
– Perform basic troubleshooting, component replacement, and rectification tasks in accordance with approved data.
– Ensure accurate completion of maintenance documentation and records in compliance with Part-145 requirements.
– Work closely with other engineers and technical staff to ensure efficient and timely maintenance delivery.

Qualifications

– Valid UK CAA Part-66 B1.3 Aircraft Maintenance License.
– Previous experience in Rotor-wing aircraft maintenance.
– Basic knowledge of Part-145 regulations and maintenance environments.
– Hands-on, practical approach with good technical awareness.
– Ability to work both independently and as part of a team.
– Strong safety mindset, attention to detail, and commitment to quality.

THE RIGHT APPROACH.

SINCE 1970

What we offer

– Competitive salary and benefits package.
– Opportunities for professional development and progression towards further authorisations.
– A professional, supportive, and safety-driven working environment.
– Exposure to active operational aircraft and varied maintenance activities.
– A permanent base at Humberside Airport, Humberside, United Kingdom.

About UNI-FLY

UNI-FLY is a reputable and innovative aviation company operating under UK CAA and EASA approvals. We are committed to safety, quality, and operational excellence, delivering maintenance and operational support services to our customers in the UK and internationally.

How to apply

If you would like to apply for this position, please send your CV, cover letter, and a copy of your UK CAA AML to: **sam@uni-fly.dk**. Applications are reviewed on an ongoing basis, and relevant candidates will be invited for interviews as applications are received.

Take the next step with UNI-FLY and become part of our maintenance team.

To be considered for this role, you must be able to demonstrate your right to work in the UK at the point of offer. We are unfortunately unable to provide visa sponsorship for this position.

At UNI-FLY, we bring together skilled professionals across operations, maintenance, and support functions. Join a team where experience, safety, and collaboration are at the core of everything we do.
