**Cabin square table**

## PRODUCT DESCRIPTION

The Cabin square table features a limestone tabletop supported by two wide legs in dark solid oak carved with vertical ridges. The light grey stone with notes of brown has a characteristic surface where a soft brush technique safeguards the natural structure of the hard stone.

### Materials

Solid oak base with a dark lacquered surface. Tabletop of Lug  t Medoc no. 7 stone treated with a one-component surface treatment.

## ASSEMBLY GUIDE

Please follow the guide to ensure correct assembly. If you experience problems, please do not hesitate to contact Customer Service at [info@vipp.com](mailto:info@vipp.com).

### Steps

- A) Place the legs on each side of the plinth and slide the plinth into both legs.
- B) Insert each of the 4 screws from the outside in on each leg. 2 on each side.
- C) In the 4 oval holes on the plinth, place the metal U-brackets on top of the screw and fit the square nut on to the thread.
- D) Fasten from the outside using the allen key. It is important that the U-shaped bracket is between the square nut and the wooden wall in the hole. Fasten tightly.
- E) Carefully lay down the tabletop on to the frame
- F) Move the tabletop to a centered position
- G) Double check that the tabletop is correctly positioned
- H) Double check that all 4 screws are fastened tightly
